**Reading English Verse in Manuscript c.1350-c.1500** Daniel Sawyer, 2020-05-21 Reading English Verse in Manuscript c 1350 c 1500 is the first book length history of reading for later Middle English poetry While much past work in the history of reading has revolved around marginalia this book consults a wider range of evidence from the weights of books in medieval bindings to relationships between rhyme and syntax It combines literary critical close readings detailed case studies of particular surviving codices and systematic manuscript surveys drawing on continental European traditions of quantitative codicology to demonstrate the variety vitality and formal concerns visible in the reading of verse in this period The small and large scale formal features of poetry affected reading subtly but extensively determining how readers might move through books and even shaping physical books themselves Readers responses to one formal feature rhyme meanwhile evince a habitual but therefore deep rooted formalism which can support and enhance close readings today Reading English Verse in Manuscript sheds fresh light on poets such as Geoffrey Chaucer John Lydgate and Thomas Hoccleve but also shows how their works were read in manuscript in the context of a much larger mass of anonymous poems that influenced canonical poems in a pattern of mutual influence

**Beowulf and Old Germanic Metre** Geoffrey Russom, 1998-03-05 This is a clear and accessible account of early Germanic alliterative verse which explains how such verse was treated by the Beowulf poet There are differences of poetic style between Beowulf and the otherwise similar verse of ancient Scandinavia and continental Europe Such distinctions have intrigued scholars for over a century but Russom is the first to provide a systematic explanation of Old English Old Norse Old Saxon and Old High German alliterative metres Russom s results should interest scholars of Old English and related Germanic languages as well as linguists and those concerned with poetic metre

**University of California Chronicle** University of California, Berkeley, 1924 **Though There Be Giants** Donald M. Shaffer, 2026-03-02 The African American Great Migration novel emerged as a popular mode of fiction in the 1920s Not

surprisingly the decade that saw both the Harlem Renaissance as well as the thunderous onset of the Jazz Age also provided the backdrop for Black migrant stories of personal triumph and transformation set in the symbolically potent urban landscape of America's iconic cityscapes. While these novels represented the powerful symbol of the Northern city as a proverbial Promised Land, they also reflected the urban pastoral conflict that defined the Black migrant experience. These novels marshaled a variant of the urban pastoral mode that historian Michael Denning has termed the ghetto pastoral. In *Though There Be Giants: The Ghetto Pastoral Mode in Black Migration Novels*, Donald M. Shaffer advances Denning's concept of the ghetto pastoral to examine the ideological tension between rural and urban modes of experience in these novels. Through close readings of Paul Laurence Dunbar's *Sport of the Gods*, James Weldon Johnson's *The Autobiography of an Ex-Colored Man*, Nella Larsen's *Quicksand*, Walter White's *Flight*, Jean Toomer's *Cane*, and Ralph Ellison's *Invisible Man*, Shaffer demonstrates how these texts destabilize concepts of race and identity even as they attempt to locate Blackness in the spaces and places of the Northern city. Shaffer traces the historical and critical link between racial uplift novels of the late nineteenth century and Black modernist novels of the mid-twentieth century. This work thus examines a key figure of African American modernity: the liminal Black migrant standing at the proverbial crossroads of Southern folk culture and the transformative cultural spaces of the Northern city. This figure defines not only a generation of Black artistic expression but also stands as the culmination of the African American literary tradition.

In the present book the variation in texts of the closed transmission will be studied focusing on a small corpus of didactic and model poems with a view to establishing what degree of text stability and change was allowed by the medium manuscript. Categories of variance relating to work titles, text number of verses and their sequence, page layout, context and the means of controlling them in the manuscripts of the poems are identified and detailed descriptions of the copies are given. The monograph also includes a presentation of some major traits of the cultural background to the study of Arabic didactic poetry and of its dissemination in which memorization has played a crucial role. The intended readers, editors and other users of manuscripts are helped to acquaint themselves with the methods employed in the manuscripts to control variation and they are given an overview of the large spectrum of Arabic didactic poetry and of its place in the traditional culture of learning in Islamic societies.
