The Professional Thief:

The Professional Thief Chic Conwell, 1956 This monograph by a professional thief with the aid of Edwin H Sutherland's expert comments and analyses is a revealing sociological document that goes far to explain the genesis development and patterns of criminal behavior Chic Conwell as the author was known in the underworld gives a candid and forthright account of the highly organized society in which the professional thief lives He tells how he learned to steal survive succeed and ultimately to pay his debt to society and prepare himself for full and useful citizenship The Professional Thief presents in amazing detail the hard cold facts about the private lives and professional habits of pickpockets shoplifters and conmen and brings into focus the essential psychological and sociological situations that beget and support professional crime

Sutherland** Chic Conwell, 1963 The professional thief , 1956 *The Professional Thief* Chic Conwell, Edwin Hardin Sutherland, 1965 **The Professional Thief, etc** , 1956 *The Professional Thief* Chic Conwell, 1965 Criminology Gennaro F. Vito, Jeffrey R. Maahs, Ronald M. Holmes, 2006 Across America crime is a consistent public concern The authors have produced a comprehensive work on major criminological theories combining classical criminology with new topics such as Internet crime and terrorism The text also focuses on how criminology shapes public policy

The Criminology of Edwin Sutherland Mark S. Gaylord, 2020-10-14 Edwin Sutherland is the acknowledged father of American criminology This is the first full length analysis of his work and his person Unlike the European schools of criminology which sought to locate deviant behaviour within the deep structures of the economy Sutherland eschewed such explanations in favour of proximate and observable causes He located the sources of crime in the association and interaction of specific groups of people For Sutherland crime as a way of life results from an individual's attachment to criminals for whom criminal acts are a measure of success no less than a way of life In a series of publications Sutherland expanded the horizons of the classic Chicago School of interactionists and in the process founded criminology as a separate area of research while locating it firmly within sociology As the authors show Sutherland's work was inspired by strong moral concerns and a sense of the needs of society for social order without falling prey to either blaming the victim or pandering to sentiment about the joys of criminal life In this sense he is a model of the sociological tradition long deserving of the biography acknowledging his role as a master and pioneer Yet Gaylord and Galliher have written more than an intellectual biography They take seriously the need to fit Sutherland and his theory of differential association into a social and historical context They are also aware and critically straightforward about the limitations of Sutherland's work in criminology but place both his achievements and their limitations in a fully developed analytical context

Criminological Theories Imogene Moyer, 2001-07-26 As an experienced teacher of criminological theory at graduate and undergraduate

levels Imogene Moyer grew increasingly dissatisfied with the somewhat narrow focus of the books available In her new text Moyer has succeeded in presenting instructors and students with a comprehensive and engaging alternative Moyer takes a multidimensional approach to the subject by including new theorists such as W E B DuBois Pauline Tarnowsky Frank Tannenbaum Ruth Shonle Cavan and Sally Simpson often allowing the theorists original source material to speak for them Chapters are devoted to recently developed perspectives particularly from women and people of color which provide readers with a broader understanding of crime and criminal behavior Criminological Theories is organized in a chronological order beginning with the 18th century classical school 3 4 focusing on Beccaria and Bentham 3 4 and ending with the late 20th century peacemaking perspective In each chapter Moyer analyzes the assumptions the theorists have made about people and society and includes discussions of the cultural and historical settings in which the theories were developed along with biographies of specific theorists and their lifetime contributions The theme of the interrelationship theory research and policy runs throughout the book with policy implications and applications frequently addressed While it is not essential for all scholars to agree on a particular theory s value Imogene Moyer has provided the background and insights necessary to understand and appreciate the diverse and valuable theoretical viewpoints that have contributed to criminology today

The Fence Darrell J. Steffensmeier,1986 This book is based on the experiences of a dealer in stolen goods alias Sam Goodman whose history serves as a model for understanding the role that fences play in today s society In his straightforward and colorful analysis of underground life Steffensmeier analyzes how a fence initiates and sustains relationships with thieves customers and other fences how he sets and negotiates prices the profits he enjoys the skills required for his job and the meaning and rewards of fencing The author relates the circumstances leading to Sam s fall his eventual arrest and conviction for receiving stolen property His field interviews are supplemented with court records and newspaper accounts interviews of thieves and customers who had contact with Sam several other fences and law enforcement officials In addition to documenting the lifestyle of a fascinating criminal life the author shows how crime is intricately woven into the fabric of society in which thieves and fences share many similarities in skills and behavior with those of legitimate businessmen Sociologists criminologists law enforcement officers and public policy makers will find this book an enlightening and engaging portrayal of the criminal career
