The Shadow Of China:

Hong Kong in the Shadow of China Richard C. Bush,2016-10-11 A close up look at the struggle for democracy in Hong Kong Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy Fueling this struggle is deep public resentment over growing inequality and how the political system established by China and dominated by the local business community reinforces the divide between those who have profited immensely and those who struggle for such basics as housing Richard Bush director of the Brookings Institution's Center on East Asia Policy Studies takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy [China's Millions](#) ,1884

The Religious System of China: book II. On the soul and ancestral worship Jan Jakob Maria Groot,1901

Taiwan and The 'China Impact' Gunter Schubert,2015-12-14 There can be no doubt that China's economic and political rise is having a stronger effect on Taiwan than on any other country given the Chinese government's claim to sovereignty over Taiwan and Taiwan's quest to maintain its democratic achievements and political identity as a sovereign state Against this background this volume deals with the bigger picture of evolving relations across the Taiwan Strait departing from the observation that China's impact on Taiwan has become stronger over the last 20 years This book analyses the China impact on Taiwan in terms of its social political and security space from both an empirical and conceptual point of view It is the first comprehensive account of China's multifaceted impact on the politics and society of contemporary Taiwan written by renowned scholars from Taiwan Europe and the U S The book covers a wide range of topics including Taiwan's party alignment elections generational politics cross strait political economy immigration policy and security The contributors political scientists and sociologists highlight both the dangers and the opportunities of the China impact for Taiwan and draw a realistic picture of the island republic's current situation and future options in the shadow of its giant neighbour Based on qualitative and quantitative data this volume intends to fill a gap in the Taiwan studies field by studying the China impact on Taiwan's politics and society systematically and from a comparative perspective By doing so it will be of great interest to students and scholars of Taiwan studies and East Asian politics and society more generally

China in the Shadow of Communism Walter P. McConaughy,1954

The Handbook of China's Financial System Marlene Amstad,Guofeng Sun,Wei Xiong,Darrell Duffie,2020-11-17 The Chinese economy is now easily one of the most important and closely scrutinized economies in the world Relatively minuscule changes in predictions of how the Chinese economy will perform can drive up or down stocks and the price of oil and other commodities At the heart of how the Chinese economy works is its financial system but the Chinese financial system is vastly different than most people in the West can understand

How do house prices work for example in a country where the very concept of property ownership is significantly different than our own This edited volume will serve as a standard reference guide to China s financial system With eighteen chapters the handbook features overviews on the banking sector the core of China s financial system and the key channel for implementing China s monetary policy China s ongoing reforms and the quickly growing bond and money markets among other topics Each chapter is written by a leading expert in the field and as a whole the list of contributors represents an impressive mix of leading scholars and high level policy officials some with first hand knowledge of setting and carrying out Chinese financial policy The handbook will serve as the first real authoritative volume of literature in the field and will shed extensive new light on the links between China s financial system and the real economy The Religious System of China, Its Ancient Forms, Evolution, History and Present Aspect, Manners, Customs and Social Institutions Connected Therewith Jan Jakob Maria Groot,1901 **The Religious System of China** Johann Jacob Maria de Groot,1901 The Religious System of China Jan Jakob Maria de Groot,1901 China's past & future [a revised repr. of The real Chinese question] by C. Holcombe. Britain's sin & folly, by B. Broomhall Chester Holcombe,1905 **China's Foreign Political and Economic Relations** Sebastian Heilmann,Dirk H. Schmidt,2014-01-09 This balanced and thoughtful book presents a thorough analysis of the dynamics of China s foreign relations Sebastian Heilmann and Dirk H Schmidt provide a comprehensive and discriminating view of the complex often competing factors domestic influences regional tensions global uncertainties that shape Chinese foreign policy They portray the PRC as a land of multiple identities a nation that is becoming more assertive in East Asia as it explores novel approaches to its foreign economic policies while simultaneously displaying thin skinned sensitivities when confronted with international criticism The authors argue that unconventional approaches to foreign relations in particular a unique combination of long term strategies with multilevel policy experiments are driving Chinese global expansion The provocative and challenging final chapter designed to spur discussion considers China s imperial identity warring against the decentralized activities conducted in the shadow of the empire Illicit transnational guerilla like networks have thus become powerful driving forces behind the continued development of China s foreign policy as well as its foreign trade relations The authors contend that the activities of these niche nomads with their largely invisible or chameleon like presence constitute the most alarming dimension of China s foreign relations as they gain ground and resources in many parts of the world with the potential to shake the very foundations of other societies **Out of Mao's Shadow** Philip P. Pan,2008 An analysis of modern cultural and political upheavals in China describes the power struggles currently taking place between the party elite and supporters of democracy the outcome of which will significantly affect China s rise to a world super power **The Far Eastern Review** ,1928 **India's Women and China's Daughters** ,1899 *The Weekly Review of the Far East* ,1922 *The Weekly Review* ,1922 **The Relation of Tariff Autonomy to the Political Situation in China** Claude Albert Buss,1927 **Outlook** Alfred Emanuel Smith,Francis Walton,1926 *The Outlook*
