Music Drama at the Paris Odeon, 1824-1828 Mark Everist, 2002-12-04 Parisian theatrical artistic social and political life comes alive in Mark Everist's impressive institutional history of the Paris Opera House, an opera house that flourished during the Bourbon Restoration. Everist traces the complete arc of the Opera House's short but highly successful life from ascent to triumph, decline, and closure. He outlines the role it played in expanding operatic repertoire and in changing the face of musical life in Paris. Everist reconstructs the political power structures that controlled the world of Parisian music drama: the internal administration of the theater and its relationship with composers and librettists and with the city of Paris itself. His rich depiction of French cultural life and the artistic contexts that allowed the Opera House to flourish highlights the benefit of close and innovative examination of society's institutions. *Three Centuries of American Rhetorical Discourse* Ronald Forrest Reid, 1988

**Theories of Literary Genre** Joseph Strelka, 1978 The problem of literary genre and the theories dealing with it concern some of the most central and significant questions of literary criticism as well as of literary history. It is not only one of the oldest but also one of the most genuinely literary principles of order in literary studies. There seems, however, to be little agreement on how to use the concept of genre to create such order. Indeed, the concept of genre itself has been repeatedly questioned by recent criticism. This book contains a comparative cross-section of essays that offer different opinions and viewpoints on theories of literary genre. Rather than dealing with the detailed problems inherent in various concepts of specific historical kinds of literature (elegy, hymn, ode, the chapter) are concerned with basic general categories such as poetry and fiction. They examine the possibilities and limitations of their usefulness as well as the theories underlying their history and structure. An attempt is made to inform about the most important basic theories put forth by the different schools of thought in generic criticism. *American Character and Other Essays, Selected from the Writings of John Erskine* John Erskine, 1927

**The Publishers Weekly**, 1929 **Journal of the American Oriental Society**, 1925 List of members in each volume

*Promised Lands* David M. Wrobel, 2002 Whether seen as a land of opportunity or as paradise lost, the American West took shape in the nation's imagination with the help of those who wrote about it, but two groups who did much to shape that perception are often overlooked today: promoters trying to lure settlers and investors to the West. They insisted that the frontier had already been tamed, that the only frontiers remaining were those of opportunity. Through posters, pamphlets, newspaper articles, and other printed pieces, these boosters literally imagined places into existence by depicting backwater areas as settled, culturally developed regions where newcomers would find none of the hardships associated with frontier life. Quick on their heels, some of the West's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage. Their selective memory focused on the savage wilderness they had tamed, exaggerating the past every bit as much as promoters exaggerated the present. Although they are generally seen today as unscrupulous charlatans and tellers of tall tales, David Wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested.

By exploring the vast literature produced by these individuals from the end of the Civil War through the 1920s he clarifies the pivotal impact of their works on our vision of both the historic and mythic West In examining their role in forging both sense of place within the West and the nation s sense of the West as a place Wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a West in the national imagination Wrobel also sheds light on the often elitist sometimes racist legacies of both groups through their characterizations of Native Americans African Americans Mexican Americans and Asian Americans In the era Wrobel examines promoters painted the future of each western place as if it were already present while the old timers preserved the past as if it were still present But as he also demonstrates that West has not really changed much promoters still tout its promise while old timers still try to preserve their selective memories Even relatively recent western residents still tap into the region s mythic pioneer heritage as they form their attachments to place Promised Lands shows us that the West may well move into the twenty first century but our images of it are forever rooted in the nineteenth

**Upton's Regulars** Salvatore G. Cilella, 2009 The harsh realities of Civil War life as seen through the eyes of the hard fighting upstate New York regiment the 121st New York State Volunteer Infantry Regiment Combs letters diaries and memoirs to let the soldiers recount the war in their own words following them from enlistment through combat and back to civilian life
