Consolidated Electrocraft ,1915 *Green Light!* Martin Wolfe, 2016-11-11 In *Green Light* Martin Wolfe gives us the big
picture of World War II airborne warfare in Europe through the lens of one unit a squadron typical of some sixty others Troop
carrier squadrons delivered paratroopers behind enemy lines tugged gliders into battle zones and between combat
operations freighted up to the front everything from food to artillery shells and carried back wounded infantrymen and newly
freed slave laborers Wolfe s firsthand account is an engaging and informative narrative that goes beyond the facts to
investigate the feelings of the tightly knit unit He also describes the management and training techniques that prepared the
squadron for its role in four of the five main invasions of Nazi Europe In all the literature about World War II this is the first
account to show how all levels of a squadron functioned clerks as well as pilots maintenance mechanics as well as flying crew
chiefs the mess hall as well as headquarters In addition Wolfe s is the first book to show the interplay between unit
experience and high command theory what units like the 81st Troop Carrier Squadron could actually accomplish and how
concepts of airborne warfare changed at Supreme Headquarters He explains why and how it was not until the last airborne
invasion in March 1945 that the full potential of the troop carrier was reached Wolfe melds the recollections of ninety
veterans of this squadron with a general history of Allied airborne forces in World War II Through their words *Green Light*
paints vivid portraits of the real men of the war not the Rambos or Sad Sacks of popular culture And through the retelling of
their experiences the book shows that the truism war is hell does not hold for all soldiers all the time **The Numismatist**
