## **Universal Kabbalah:**

**The Universal Kabbalah** Leonora Leet, 2004-09-29 Presents a new understanding of the laws of cosmic manifestation through the sacred geometry of the Sabbath Star diagram Explores three higher levels of consciousness above the four worlds of the classical Kabbalah Reveals the mathematical code of the laws of all cosmic manifestation This landmark work by an innovative modern Kabbalist develops a scientific model for kabbalistic cosmology and soul psychology derived from the kabbalistic diagram of the Tree of Life and the author's own Sabbath Star diagram a configuration of seven Star of David hexagrams This geometric model begins with the four worlds of the classical Kabbalah which bring us to the present time and birthright level of the soul and is then expanded to three higher enclosing worlds or levels of evolving consciousness The Sabbath Star diagram therefore accommodates both the emanationist cosmology of the earlier Zoharic Kabbalah and the future orientation of the later Kabbalah of Isaac Luria The hexagram elements that construct each expansion of the Sabbath Star diagram configure the cosmic stages of each of its worlds The matrix that is produced by these construction elements configures the level of the multi dimensional soul that is correlated with each cosmic world In its final stage this model unites the finite and infinite halves of the Sabbatical world in a way that exemplifies the secret doctrine of the Kabbalah Not only does this work offer a new inclusive model for the Kabbalah but it also provides a basis for complexity theory with its final extrapolation to infinity The universality of this model is further shown by its applicability to such other domains as physics sociology linguistics and human history This universal model encodes the laws of all cosmic manifestation in terms that are particularly coherent with the formulations of the Kabbalah giving a mathematical basis to many aspects of this mystical tradition and providing a new synthesis of science and spirituality for our time that may well write a new chapter to the Kabbalah

**The Universal Meaning of the Kabbalah** Leo Schaya, 2005-12-30 God the Universe and Man their essential unity and fundamental attributes as seen through the eyes of the Jewish esoteric tradition Includes charts and diagrammatic illustrations To discover the deepest meaning of the Old testament is something that could have a most tonic and enlightening effect on the whole of Christian thought today no clearer interpreters are to be found than the masters of the Kabbalah A reprint from Jacob Needleman's Penguin Metaphysical Library [From Yoga to Kabbalah](#) Véronique Altglas, 2014-05-01 Religious exoticism implies a deeply ambivalent relationship to otherness and to religion itself traditional religious teachings are uprooted and fragmented in order to be appropriated as practical methods for personal growth Western contemporary societies have seen the massive popularization of such exotic religious resources as yoga and meditation Shamanism Buddhism Sufism and Kabbalah Véronique Altglas shows that these trends inform us about how religious resources are disseminated globally as well as how the self is constructed in society She uses two case studies the Hindu based movements in France and Britain that started in the 1970s and the Kabbalah Centre in France Britain Brazil and Israel She draws upon major qualitative and cross cultural empirical investigations to conceptualize religious exoticism and

offer a nuanced and original understanding of its contemporary significance From Yoga to Kabbalah broadens scholarly understanding of the globalization of religion how religions are modified through cultural encounters and of religious life in neoliberal societies

**The Universal Meaning of the Kabbalah** Leo Schaya,2004 In addition to the Talmud one of the classical sources of Jewish mysticism the Hebrew Bible and the Zohar or Book of Splendor are discussed in an all embracing synthesis of our earthly individuality to our essential identity with the Absolute

**Universal Kabbalah** Laith Doory,2018-10-04 Its detractors often associate kabbalah with Luciferianism or the so called synagogue of Satan but such occult wisdom in itself is not intrinsically evil though it may be abused by the unscrupulous Moreover it is always useful to have a handle on one

**The Book of Immediate Magic - Part 1** Jacobus G. Swart,2015-12-25 The Shadow Tree Series comprises a unique collection of Western Esoteric studies and practices which Jacobus G Swart spiritual successor to William G Gray and co founder of the Sangreal Sodality has actuated and taught over a period of forty years In The Book of Immediate Magic Part 1 Jacobus G Swart perpetuates the fundamental tenets of Self Creation in which it is maintained that the Centre establishes the Circumference and that personal reality is emanated in harmony with personal Will Hence this tome comprises an enhancement and expansion of the magical doctrines and techniques of Practical Kabbalah addressed in The Book of Self Creation The Book of Sacred Names and The Book of Seals Amulets Jacobus Swart claims that working Immediate Magic is neither impossible nor difficult when we fully understand that consciousness is just one vast ocean and that thoughts are the waves we make in it It is all a matter of coordinating consciousness

*The Secret Teachers of the Western World* Gary Lachman,2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis *The Secret Teachers of the Western World* In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative

opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de siècle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West

**Creating the Soul Body** Robert E. Cox, 2008-04-18 Outlines the principles and mechanics of the soul body the spiritual vehicle that enables individual consciousness to survive the body's death Shows that the ancient Vedic Egyptian Hebraic and Pythagorean traditions shared and understood this spiritual practice Reveals modern science as only now awakening to this ancient sacred science Ancient peoples the world over understood that individual consciousness is rooted in a universal field of consciousness and is therefore eternal surviving the passing of the physical body They engaged in spiritual practices to make that transition maximally auspicious These practices can be described as a kind of alchemy in which base elements are discarded and higher levels of consciousness are realized The result is the creation of a vehicle a soul body that carries consciousness beyond physical death These spiritual preparations are symbolized in the Vedic Egyptian and Hebraic traditions as a divine stairway or ladder a step by step path of ascent in which the practitioner raises consciousness by degrees until it comes to rest in the bosom of the infinite thereby becoming immortal This spiritual process explains the reincarnation of the Dalai Lama for example whose reincarnation is confirmed in infancy through physical and spiritual signs indicating that the consciousness has been carried from one lifetime to the next In **Creating the Soul Body** Robert Cox maps the spiritual journey of consciousness behind this sacred science of immortality and reveals the practice of creating a soul body in detail He also shows that this ancient spiritual science resembles advanced theories of modern science such as wave and particle theory and the unified field theory and reveals that modern science is

only now awakening to this ancient science of immortality      *Universal Kabbalah* Sheldon Stoff, Jesse A. Stoff, Lorraine M. Stoff (M.A.), 2003 The Essence of a Universal Kabbalah is both a beautiful love story and a healing manual for the Soul Mind and the Body It expresses in a profound way the eternal religion that is the basis for Judaism Christianity and Islam And more it gives a clear instruction for the practical application of its principles      *The Code of the Masters* Root Light, 2006-03-01

**Abraham Abulafia's Esotericism** Moshe Idel, 2020-10-12 This book focuses on Abraham Abulafia's esoteric thought in relation to Maimonides Maimonideans and Islamic thought in the line of Leo Strauss theory of the history of philosophy A survey of Abulafia's sources leads into an analysis of the esoteric meaning on the famous parable of the three rings considering also the possible connection between this parable which Abulafia inserted into a book dedicated to his student the 13th century rabbi Nathan the wise and the Lessing's Play Nathan the Wise The book also examines Abulafia's universalistic understanding of the nature of the Bible the Hebrew language and the people of Israel or the Sinai revelation The universal aspects of Abulafia's thought have been put in relief against the more widespread Kabbalistic views which are predominantly particularistic A number of texts have also been identified here for the first time as authored by Abulafia

**Unlocking Reality** Michael Grevis, 2017-05-24 Unlocking Reality is designed as a practical tool to help us study and practise spirituality beyond the dogmas of religion All mystics have tapped into a more harmonious grateful and loving aspect of their inner life The Way of Kabbalah enables us to integrate a deeper understanding of reality with a new appreciation of the significance of our own lives This book integrates the latest thinking to enhance our knowledge of Lurianic Kabbalah and to explore how it speaks to us today and forever Mysticism exists to open the heart of humanity to find new intuitions of wisdom and peace We draw on the teachings of many advanced souls down the ages and those operating in our own time who have tapped into higher sources of wisdom power and love We need to develop as individuals into all our sacred dimensions to regain our balance as we deal with our overly intellectual and often shallow culture Kabbalah is a series of explanations of reality which throws light on our dilemmas and offers a path to psychological wholeness and freedom

**Universal Aspects of the Kabbalah & Judaism** Leo Schaya, 2014 Leo Schaya 1916-1986 was a brilliant author and editor whose only book to appear in English was the much acclaimed *The Universal Meaning of the Kabbalah* which is often cited in books on Jewish mysticism This new book *Universal Aspects of the Kabbalah and Judaism* is a collection of writings by Schaya including some previously unpublished material that highlight the particular way in which Judaism expresses universal truths and concepts Schaya explains in great depth and beauty how the God of Israel manifests His goodness power and mercy in multiple levels of creative emanations which are the main focus of the Kabbalah Even more however Schaya looks through Judaism's particular forms and demonstrates that at its core Judaism reveals the same mysterious universal source from which all of the great religious traditions of the world draw their spiritual sustenance and energy      [The Word](#) ,1917      *Universal Classics Library* ,1901      *Universal Classics Library: Ottoman literature, tr. by E.J.W. *The Kabbalah of the Soul* Leonora Leet, 2003-03-25 Reveals the transformative spiritual work by which the soul can reach ever higher dimensions of consciousness Relates the soul levels of the Zohar to the various paths the soul may travel toward ultimate realization Introduces a new meditative technique called the Transformative Moment Throughout the history of the Jewish esoteric tradition humankind has been understood to play a pivotal role in the perfection of the cosmos uniting the finite with the infinite in the perfection of divine personality Working from an original synthesis of the major kabbalistic traditions of cosmology derived from the Bible the Zohar and the school of Isaac Luria Leonora Leet has erected a new framework for understanding the mechanism of the transformative spiritual work that enables the human soul to reach increasingly higher dimensions of consciousness This analysis extends the frontiers of Leet s prior works on the Kabbalah to provide a new illumination of human possibilities Leet first considers the false temptations of worldly power and pleasure that lead to the fall of the soul and then the means of its redemption She develops a powerful meditative technique called the Transformative Moment whose workings are exemplified by Jacob and Joseph and that allow the individual to progress through all the higher levels of the soul even possibly to attain the miraculous powers of the legendary spiritual masters She further correlates the hierarchy of soul levels with Ezekiel s Throne vision to show the various paths the soul may travel toward self realization sex love power knowledge holiness and unification The first four paths relate to the four faced living creatures Chayot of Ezekiel s Throne vision the bull ox lion eagle and man The final two paths correlate to the prophet and the envisioned man on the throne he recognizes to be his divine higher self the knowledge that defines the secret doctrine of the whole of the Jewish mystical tradition culminating in the Kabbalah
