Zero Fighter:

Mitsubishi Zero Peter C. Smith, 2014-11-30 A history of the Japanese aircraft illustrated by well reproduced black and white photographs details the plane's impressive WWII aviation record. Aviation News The Mitsubishi Zero is one of the greatest fighter aircraft ever to have graced the skies. Symbolic of the might of Imperial Japan she represented a peak of developmental prowess in the field of aviation during the early years of the Second World War. Engineered with maneuverability in mind this lightweight stripped back aircraft had a performance that left her opponents totally outclassed. The dogfights this aircraft engaged in with the Chinese, British, Dutch, and American warplanes in the 1941-42 period are the stuff of aviation legend. The Zero remained a potent threat until the end of the war, not least in her final role that of a Kamikaze plane in which she created as much havoc on the sea as she had done earlier in the air. Peter C. Smith takes the reader on a journey from inspired inception to the blazing termination of this unique aircraft, the first Naval fighter to be superior to land-based aircraft. Mitsubishi Zero describes in detail the many victories that punctuated the early days of the plane's operational career as well as the final days of the Second World War which witnessed her demise. Smith also lists the preserved Zero aircraft on display today. This is a fast-paced and fascinating history of a fighter aircraft like no other.

Fighter Zero - Mitsubishi A6M Mantelli - Brown - Kittel - Graf, 2015 The Mitsubishi A6M Zero was a lightweight fighter that comes with the Dai Nippon Teikoku Kaigun Koku Hombu service aircraft of the Imperial Japanese Navy 1940-1945. The official designation was obtained by dialing the A for aircraft embarked 6 because it was the sixth model built for the Japanese Navy and the M initial manufacturer Mitsubishi. The A6M was usually called by the Allies as the Zero, a name sometimes associated by mistake to other fighters such as the Nakajima Ki 43. In addition to zero, the model was called by the Americans with other nicknames such as Zeke, Hamp, and Hap. The Japanese called it Reisen Zero Fighter. Americans Zeke, diminutive of Zechariah, but it was the same airplane, the small, acrobatic, and elusive of the Mitsubishi A6M. Why Zero and why Zechariah Zero because it entered service for the Navy Imperiale in the year of Christ 1940 corresponding to the year 2600, the mythological calendar of the Rising Sun, if it entered service in 1936, 2596 it would be called Type 96, if in 1939, 2599 Type 99. As for Zechariah is explained by the fact that the code allied planes taking Japanese male names if they were fighter: Tony, Oscar, George, Frank, if female bombers: Sally, Betty, Nell, Peggy. For Japan the Zero was in fact much more than an airplane but the symbol of the air power of the Empire. For the Allies it was much more of a relentless opponent but a nightmare and at the same time a myth.

Zero Fighter Robert C. Mikesh, 1981 Describes the development, specifications, and combat record of the Japanese fighter plane and explains why it could not compete with Allied aircraft introduced later in World War II.
