The Ongoing Technological System Smail Ait-El-Hadjait, 2017-09-25 The high level of innovation currently transforming our society and its technological dynamics can be seen as a second wave of innovation of the third technological system which emerged in the late 1970s This book discusses the concept of technological systems focusing on the tools used for formalizing the organization of technology in society and its dynamics of evolution The author uses these tools to characterize the contemporary technological system and to model its specific dynamics In doing so he raises questions about the continuity of the current technological system and its capacity to generate powerful innovatory movements

The Social Construction of Technological Systems Wiebe E. Bijker, Thomas Parke Hughes, Trevor J. Pinch, Trevor Pinch, 1989 The impact of technology on society is clear and unmistakable The influence of society on technology is more subtle The 13 essays in this book have been written by a diverse group of scholars united by a common interest in creating a new field the sociology of technology They draw on a wide array of case studies from cooking stoves to missile systems from 15th century Portugal to today's AI labs to outline an original research program based on a synthesis of ideas from the social studies of science and the history of technology Together they affirm the need for a study of technology that gives equal weight to technical social economic and political questions Back cover
