

Spate Prosa

Margaret Elizabeth Morse

Spate Prosa:

Hermann Hesse Joseph Mileck, 1980 A critical biography far surpassing the previous ones Times Higher Education Supplement There are to be sure many writers whose biographies are more interesting than their fiction but Hesse is not one of these He led a long and sometimes eventful life with marital tensions travel controversy crises even some thoughts of suicide and a period of time as a student in a home for retarded and unmanageable In addition there was his search which led him through the culture and arts of West and East his views of politics and society of psychology and philosophy The difference between Hesse and other writers is that virtually every shred and patch of his life was brought into his writing his fiction particularly He had to write about himself and there is little of what he wrote that is not confessional in form and therapeutic in function Autobiography is the very matter of his work Mileck's contribution is to extend and fill out the evidence of his life his psychoanalysis his drive toward self realization which was the very engine of his being to show the raw material and thus to invite readers to see how it was transmuted transfigured fantasized poeticized symbolized Los Angeles Times Hesse was a prolific author for some 60 years and his mind drew everything it contemplated into his private wars between flesh and spirit objectivity and subjectivity the longings for society and isolation No one is better qualified to disentangle this abundance than Mileck compiler of the huge two volume Hesse bibliography For completeness then no biography in English compares Kirkus Reviews Mileck provides his own translations of the German quotations from Hesse's works and the eight interpretive chapters are thoroughly indexed making the work readily accessible to researchers and students concerned with specific Hesse questions and themes This very readable book also contains a number of exceptional photographs which together with Mileck's fervor and understanding of the author help create a living image of Hesse the man and the artist Choice Professor Mileck brings to his task an acquaintanceship with Hesse's published and unpublished writings which borders on omniscience This is a literary biography which concentrates on the works and looks at the life of its subject briefly and always in relation to its involvement with the works This is true scholarship which does not make the book less readable and accessible to the general public a solid and valuable book which should make it easier to bring Hesse back into the orbit of serious appreciation in the English speaking world Books and Bookmen New Directions in Copyright Law Fiona Macmillan, 2007-01-01 This is an exceptional collection of scholarly contemporary thoughts on the future directions of copyright law The contributors to this volume come from many jurisdictions and bring with them their respective rich backgrounds and experiences in copyright law The result is an enlightening collection of papers Yee Fen Lim Journal of Intellectual Property Law and Practice *Transparent Minds* Dorrit Cohn, 1978 This book investigates the entire spectrum of techniques for portraying the mental lives of fictional characters in both the stream of consciousness novel and other fiction Each chapter deals with one main technique illustrated from a wide range of nineteenth and twentieth century fiction by writers including Stendhal Dostoevsky James Mann Kafka Joyce Proust Woolf and Sarraute *Späte Prosa*
