

# Proven Study Techniques That Really Work

## Spaced Repetition

Review info at set intervals, not all at once. Come back just as you're about to forget — this locks it in for the long term. Try apps like Anki to make it easy

## Retrieval Practice

Quiz yourself instead of just rereading notes. Actively pull answers from memory — practice tests and flashcards help make knowledge stick

## Interleaved Practice

Don't study just one subject for hours. Switch topics and problem types. Mixing things up feels harder, but it teaches your brain to spot patterns

## Elaborative Interrogation

Ask "why?" as you study. Connect new ideas to what you already know. Explaining in your own words helps you remember information better
