Diem, 2021-07-02 Fifty years have passed since the fateful night the Immortal Triumvirate cast a curse that affected millions of people The victims were turned into the Halloween costumes they were wearing at the time the hex struck The poor souls were torn from their normal lives and were drawn to Nox to become the batteries that powered the magical City of Night Factions have been scheming in the Vampire Fae Shifter and Demon Districts since the very beginning of the city's creation Many of the rebels have been eradicated by the Immortal Triumvirate's assassins but they couldn't wipe them all out Xiara Evora the Guardian of Nox has also killed some of their foes with the aid of her trusty staff Wrath The rebels have formed their own triumvirate They plan to challenge their enemies during the upcoming party to celebrate the city's fiftieth anniversary Sebastian Kade and Raum aren't the only ones who have formed a union Onvier Azazel and Nilanthi have also become bound A trio of trinities are all vying for rulership of the City of Night Crowmon has evolved from a trickster god into something far darker and infinitely more dangerous He's determined to rule the city and to subjugate everyone to his will War is coming to Nox The fate of the entire population and the city itself will soon hang in the balance *Nonfood Sensory Practices* Anne-Marie Pense-Lheritier, Irene Bacle, Julien Delarue, 2021-08-28 Sensory evaluation is applied in very diverse and sometimes unexpected sectors Nonfood Sensory Practices aims to show how sensory professionals from sectors other than food have embraced sensory evaluation methods for product development and communication of their products sensory properties This book is thus intended as a first assessment of what is happening in nonfood sectors It will open perspectives to those sensory professionals who wish to apply and adapt their expertise in food sensory science to other types of products as well as to those working in nonfood sectors but with lesser background in sensory evaluation Many nonfood products are intrinsically complex They can be used in diverse ways often in strong

interaction with context and unlike food over several hours days or months This book shows how sensory professionals have adapted to these specificities not to mention specific needs in terms of panel management and different ways to deal with consumers users customers or even sometimes with patients First chapters present general methodological principles that will allow readers to fully apprehend the use of sensory practices Then contributions from many professionals in nonfood sectors will help to realize and promote the potential added value of sensory evaluation to their own field of application Presents methodological specificities and solutions for the sensory evaluation of non food products Includes case studies that help readers understand how to adapt food centric sensory methods developed for non food applications Triggers new ideas and further useful developments for the sensory evaluation of food products and the study of food related consumer behaviors
