and Eternity Brian Leftow,2018-09-05 Brian Leftow makes an important contribution to the longstanding debate among philosophers and theologians about the nature of God's eternity The author develops a powerful and original defense of the notion that God is eternal in that he exists timelessly that is that though God exists he does not exist at any time Leftow defends the claim that a timeless God can be an object of human experience and he attempts to delineate the extent of such a God's omniscience Finally the author pays special attention to the relation between the claim that God is timeless and the claim that God is metaphysically simple

Eternal God/saving Time George Pattison,2015 Starting from the assumption that time is the horizon of the meaning of Being Heidegger *Eternal God Saving Time* attempts to discover what the central religious idea of eternity or of God as the Eternal might mean today Negotiating ideas of divine timelessness and sempiternity everlastingness as well as the attempts of some philosophers to develop the idea of a temporal God Professor George Pattison surveys a range of positions from analytic philosophy and from the continental tradition from Spinoza through Hegel to the present Intellectual and cultural forces have tended to separate time and eternity and both philosophical and theological examples of this tendency are examined Nevertheless starting from the experience of life in time some modern thinkers have developed a new approach to the Eternal as what grounds or gives time This leads through ideas of novelty utopia hope promise and call to the projection of a creative and transformative memory remembering the future that affirms human solidarity and mutual responsibility Even if this cannot be made good in terms of knowledge it offers a basis for hope prayer and commitment and these options are explored through a range of Christian Jewish Greek and secular thinkers This development re envisages the idea of redemption away from the Augustinian view that time is what we need to be rescued from and towards the idea that

time itself might save us from all that is destructive and tyrannical in time's rule over human life *The Gospel Of Grace* Dr. Mark Wickstrom, 2012-01-23 The Gospel of Grace This book is about the process of deciding how we determine our use of any particular biblical text In essence we are each other the architect of our own biblical house Let's take an honest look at how we have designed our individual house In this inspired and engaging work Mark Wickstrom shows how conflicting religious opinions derive not from contradictions in the Bible but from personal agendas that contradict the gospel of grace He identifies the timeless truths cultural norms personal opinions and random texts that suit personal agendas and may create divisions among the faithful Read the Gospel of Grace to discover how to create deeper understanding and unity in faith communities large and small
