Appalachian Case Study Kyle Lovern, 2008 The state of West Virginia has a long prominent history of unexplained happenings and bizarre sightings of unidentified flying objects UFOs Perhaps it's because we are a rural state geographically covered with harsh mountains and rolling hills being far from more densely populated territories that makes this phenomena even more fantastic Maybe the people here are just more observant of such oddities or more willing to report such experiences to authorities Then again it could be that the Mountain State is in somewhat close proximity to the nation's capitol Washington DC or to Wright Patterson Air Force Base in Dayton Ohio that makes such sightings probable Regardless of the reasons for the increased

activity in Appalachia it remains a fact that citizens of the state have recorded an astounding number of UFO sightings over the last fifty years. Among these have been high profile incidents such as the famed Braxton County Monster. Additionally the legendary Mothman sightings near Point Pleasant still mystify investigators and enthusiasts. There were the infamous Men in Black investigators that have garnered international attention to the Appalachian Mountains. Hundreds of lesser known cases exist where solid citizens of upright character claimed to have witnessed strange flying objects over the state's airspace. Many of these sightings have been reported to county law enforcement or to federal investigative agencies often with lackluster results. However it's likely that an even greater percentage of eyewitnesses have kept their experiences secret to avoid public ridicule or harassment from non-believers. To this day the whole UFO situation is often viewed as an erroneous and suspect enigma. Of course author Kyle Lovern tends to see things differently and so do millions of others like him. This work includes 16 fresh sightings and interviews with the individuals who experienced the unexplained. [UFO Crash Sites](#) Dinah Williams, 2015-01-01. Since the beginning of recorded history people have been mystified by UFOs unidentified flying objects. Even Christopher Columbus on a 1492 voyage aboard the Santa Maria was puzzled by a sight he described as a light glimmering at a great distance in the sky. While no UFOs have ever been captured or recovered there may be startling clues to their existence left behind in places where they are thought to have struck the ground. In this book children will visit 11 of the eeriest UFO crash sites found around the world. Among them is the scene of a gigantic unexplained explosion that knocked flat 80 million trees a hillside strewn with unearthly artifacts and a spot where an alien pilot is said to be buried. The intriguing photographs and fascinating nonfiction text will keep children turning the pages to discover more spellbinding stories. **Alien Encounters** Peter Hepplewhite, Neil Tonge, 1998-03.
