General Assembly. Senate,1996 Uniform Solar Energy Code International Association of Plumbing and Mechanical Officials,1982

The advantages of a uniform solar energy code acceptable in the various jurisdictions have long been recognized The increasing needs for such a code induced the International Association of Plumbing and Mechanical Officials to pass a resolution at their 46th Annual Business Conference which directed the President to form a Committee to develop a basic solar energy document After months of concerted endeavor this Committee composed of representatives from Industry and Public Utility Companies Inspectors Plumbers and Engineers successfully completed the first edition of the Uniform Solar Energy Code which was officially adopted by the International Association of Plumbing and Mechanical Officials in September 1976 In presenting the 1982 edition IAPMO recognizes that the ultimate has not yet been attained Users of this Code are respectfully urged to present whatever amendments their experience may dictate to the Association s headquarters not later than March 1 of each year so that by formal adoption of such uniformity may be maintained and all will benefit Amendments adopted by the membership will be published in revised form every third year and will keep this basic document abreast of technological development The use of this document is intended to provide a safe and functional solar energy system with minimum regulations Users of the Uniform Solar Energy Code are urged to strive for not just the minimum good solar energy system but to keep the ultimate consumer in mind and go a step beyond and exceed the minimum The consumer is entitled to more than a safe and sanitary solar energy system With the exception of high use and wear portions of the system the solar energy system should have the same life as other components of the building The Uniform Solar Energy Code is dedicated to all those who have unselfishly devoted their time and effort to create this Code

United States Code United States,2001 The United States Code is the official codification of the general and permanent laws of the United States of America The Code was first published in 1926 and a new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second Session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First Session enacted between January 2 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and

controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U S C 285b to enact the remainder of the Code on a title by title basis into positive law The 2012 edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office Preface Solar Engineering American Society of Mechanical Engineers.
