## **Unstately Power Local Causes Of Chinas Economic Reforms:**

Unstately Power: Local causes of China's economic reforms Lynn T. White (III),1998 Unstately Power Lynn T. White, III,2015-06-03 A critique of America s flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews Regulating Land and Pollution in China Benjamin van Rooij,2006 Annotation Many of China s rivers and lakes are strongly polluted the air in cities is amongst the worst in the world while some have warned that if the country is not careful it may soon have insufficient arable land to feed its population This book looks at why the protection of natural resources through stricter legislation and more stringent law enforcement has been so difficult It does so through a combination of a local case with comparative and theoretical insights about lawmaking compliance and enforcement It offers a unique view on how law functions in the world s largest legal system and how such law interacts with the social economic and political circumstances at hand This book offers an incomparable body of empirical and theoretical knowledge for those interested in how law functions in China as well as those interested in the workings of regulatory lawmaking compliance and enforcement in a comparative perspective This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789087280130> Handbook of Contemporary Behavioral Economics Morris Altman,2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of how economic decisions are actually made Social Policy Reform in Hong Kong and Shanghai: A Tale of Two Cities Linda Wong,Lynn T. White, III,Gui Shixun,2016-07-22 As the richest cities in the world s most populous nation Hong Kong and Shanghai have recently experienced dynamic growth spurred by more and better managed capital These cities also have social problems whose solutions will cost money Their urban populations are aging Health finance at the level these First World cities demand threatens to consume a large portion of the municipal budgets Eldercare and social security are now less well covered by traditional Chinese families Education has become more complex and public tuition where it occurs brings with it official plans for schools Immigrants have flocked to Shanghai from inland China and Hong Kong s border has become a protector of the former colony s high productivity jobs Housing problems also have deeply affected both cities albeit in somewhat different ways This book provides a comprehensive overview of the similarities and differences between social policies in the two cities Each chapter covers a different issue health finance housing education labor poverty and social security eldercare and migration and competitiveness The contributors explore pertinent developments in each city and analyze the similarities and differences between the two cities approaches to social policies They focus on policy reform and the interface between social policy and its environment One main theme throughout the book is the extent to which spending for capital

accumulation is in conflict with spending for social policies

**Mao** Lee Feigon,2003-07-24 Mr Feigon argues that the movements for which Mao is almost universally condemned today the Great Leap Forward and especially the Cultural Revolution were in many ways beneficial for the Chinese people While not glossing over Mao s mistakes he contends that the Chinese leader should be largely praised for many of his later efforts In reevaluating Mao s contributions this interpretive study reverses the curve of criticism Feigon performs a service by reclaiming the historical context of Mao s crazed era He has written a concise work that forces the reader to recall the circumstances that abetted Mao s reign Far Eastern Economic Review

**Double Entrepreneurship in China's Economic Reform** Keming Yang,2000 Philippine Politics Lynn White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture

**Unstately Power: Local causes of China's economic reforms** Lynn T. White,1998 China s dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping This fascinating new study by one of the West s leading authorities on contemporary China shows however that reforms began and are maintained by local networks They emerged first in the economy partly as unintended results of previous policies Agricultural extension in Mao Zedong s time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries This caused socialist control of input prices and commodity flows to collapse by the mid 1980s As a result shortages and inflation bedeviled the economy the state ran deficits management decentralized local banks proliferated and immigration to cities soared

**Reforming Mao's State** Ju Wu,2005      **Report** University of Hong Kong. Centre of Asian Studies,1996

*Government and Market in China* Jian Zhang,2004 This book examines the key role played by local governments in China's market oriented economic reform process since 1978 In particular it addresses the much debated questions of why Communist Party officials at the local level embraced market reform despite its potentially detrimental effects on their power and how the choices they made have shaped institutional changes and the pattern of development in the economies under their jurisdiction In contrast to most recent studies of local governments in China which have tended to explain local state activism in terms of the economic interests of local government officials this book highlights the role that political interests have played in shaping economic behaviour The contention is that the active involvement of local governments in the economy has been motivated not only by a desire to seek economic benefits but also and more importantly by political considerations The political perspective emphasised in this book leads to a reassessment of the nature and effect of the role of local government in the economic growth and institutional changes in China's transitional economy Tracing the behaviour of local government to its political origin the book not only explains more fully the motivational sources of economic activism at the local level but also demonstrates the contradictory ways in which local governments intervene in the economy the internal weakness of the local state led development and how problems caused by politically motivated economic intervention catalysed the privatisation of the local government run economic sector during mid 1990s

**New Directions in Chinese Politics for the New Millennium** Guoli Liu, Weixing Chen,2002 Addresses the most significant development in China's reform with a focus on rural and urban elections comprehensive marketization nature of political change China's entry into the World Trade Organization property rights and science and technology policy and culture and sovereignty
