Tiny Tortilla:

Tiny Tortilla Arlene Williams, 2005 Juan Carlos discovers that with the right touch he can transform some special tortilla dough into unexpected shapes

Transnational Tortillas Carolina Bank Muñoz, 2016-05-02 This book looks at the flip side of globalization How does a company from the Global South behave differently when it also produces in the Global North A Mexican tortilla company Tortimundo has two production facilities within a hundred miles of each other but on different sides of the U S Mexico border The workers at the two factories produce the same product with the same technology but have significantly different work realities This global factory gives Carolina Bank Muñoz an ideal opportunity to reveal how management regimes and company policy on each side of the border apply different strategies to exploit their respective workforces vulnerabilities The author's in depth ethnographic fieldwork shows that the U S factory is characterized by an immigration regime and the Mexican factory by a gender regime In the California factory managers use state policy and laws related to immigration status to pit documented and undocumented workers against each other Undocumented workers are subject to harsher punishment night shift work and lower pay In the Baja California factory managers sexually harass women who make up most of the workforce and create divisions between light and dark skinned women forcing them to compete for managerial attention which they understand equates with job security In describing and analyzing the differences in working conditions between the two plants Bank Muñoz provides important new insights into how in a globalized economy managerial strategies for labor control are determined by the interaction of state policies and labor market conditions with race gender and class at the point of production

Culturally Sensitive Narrative Interventions for Immigrant Children and Adolescents Giselle B. Esquivel, Geraldine V. Oades-Sese, Marguerite L. Jarvis, 2010-07-08 This book provides scholarly and applied perspectives on culturally sensitive narrative interventions for culturally diverse and immigrant children and adolescents A resilience model and strengths based approach form the basis for responding to stressors of migration and the acculturation process through the use of narrative storytelling drawings and puppetry techniques The authors emphasize and illustrate the need to incorporate evidence based approaches and cultural understanding when developing and implementing narrative educational and therapeutic interventions

The North American Indian: The Tiwa. The Keres Edward S. Curtis, 1926 A comprehensive and permanent record of all the important tribes of the United States and Alaska that still retain to a considerable degree their primitive customs and traditions The value of such a work in great measure will lie in the breadth of its treatment in its wealth of illustration and in the fact that it represents the result of personal study of a people who are rapidly losing the traces of their aboriginal character and who are destined ultimately to become assimilated with the superior race It has been the aim to picture all features of the Indian life and environment types of the young and the old with their habitations industries ceremonies games and everyday customs Though the treatment accorded the Indians by those who lay claim to civilization and Christianity has in many cases been worse than criminal a rehearsal of these wrongs
