Understanding Circumcision George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos, 2001-10-31
Proceedings of the Sixth International Symposium on Genital Integrity Safeguarding Fundamental Human Rights in the 21st Century held December 7-9 2000 in Sydney Australia Morality, Violence, and Ritual Circumcision Na'ama Carlin, 2022-11-30 This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence Intervening in contemporary debates on the Jewish ritual of circumcision it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent An examination of the intersection of violence and morality this book rejects the binary logic on which popular debates on circumcision hinge arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad Engaging with the works of Jacques Derrida the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence the violence of being which resists definition through binary oppositions In so doing the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies As such this volume offers a compelling framework that investigates the relationship between bodies identities ethics and violence and will therefore appeal to scholars of sociology social theory and religion with interests in the sociology of the body ritual and cultural studies *Genital Cutting: Protecting Children from Medical, Cultural, and Religious Infringements* George C. circumcision *Cultural, Religious and Political Contestations* Fethi Mansouri, 2015-05-06 This book examines the foundations of multiculturalism in the context of migr societies and from a multi dimensional perspective The work considers the politics of multiculturalism and focuses on how the discourse of cultural rights and intercultural relations in western societies can and should be accounted for at a philosophical as well as performative level Theoretical perspectives on current debates about cultural diversity religious minorities and minority rights emerge in this volume The book draws our attention to the polarised nature of contemporary multicultural debates through a well synthesised series of empirical case studies that are grounded in solid epistemological foundations and contributed by leading experts from around the world Readers will discover a fresh re examination of prominent multicultural settings such as Canada and Australia but also an emphasis on less examined case studies among multicultural societies as with New Zealand and Italy Authors engage critically and innovatively with the various ethical challenges and policy dilemmas surrounding the management of cultural and religious diversity in our contemporary societies Comparative perspectives and a focus on core questions related to multiculturalism not only at the level of practice but also from historical and philosophical perspectives tie these chapters from different disciplines together This work will appeal to a multi disciplinary audience including scholars of political philosophy sociology religious studies and those with an interest in migration culture and religion in contemporary societies
