Managing Health Services Goodwin, Nick, Gruen, Reinhold, Iles, Valerie, 2005-12-01 Health care systems are highly complex and dynamic. Different systems around the world vary in the way services are managed yet regardless of these differences the need for effective managers and managerial leaders is essential in allowing organizations or professionals to achieve specific goals. This book provides an understanding of the concepts of management, managerial leadership and governance within health care systems. It provides a thorough introduction to and conceptual framework for the analysis of health systems management and goes on to examine fundamental management tasks including Managing income and finances, Managing people, Managing strategy and change, Managing results. *Understanding Health Policy* Rob Baggott, 2015-10-14 In recent years the pace of reform in health policy and the NHS has been relentless. But how are policies formed and implemented? This fully updated edition of a bestselling book explores the processes and institutions that make health policy, examining what constitutes health policy, where power lies and what changes could be made to improve the quality of health policy making. Drawing on original research by the author over many years and a wide range of secondary sources, the book examines the role of various institutions in the formation and implementation of health policy. Unlike most standard texts, it considers the impact of devolution in the UK and the role of European and international institutions and fills a need for an up to date overview of this fast moving area. It features new case studies to illustrate how policy has evolved and developed in recent years. This new edition has been fully updated to reflect policies under the later years of New Labour and the Coalition government. Although written particularly with the needs of students and tutors in mind, this accessible textbook will also appeal to policy makers and practitioners in the health policy field. *Understanding Healthcare Information* Lyn Robinson, 2010 In an age of internet resource guides which suffer from the malaise of being outdated before they are published, this much needed publication addresses the information chain in its entirety, offering a timeless method of understanding healthcare information resources. The author takes a holistic approach in her consideration of healthcare information with the aim of building an overall understanding of it within the information society. The text analyses the domain of healthcare information, its organizational structures and history and the nature of its resources and the drivers for change affecting them. It looks at examples of healthcare information resources from the perspective of different user groups including healthcare professionals and consumers and goes on to highlight areas of research into healthcare information including evaluation studies, user and impact studies, bibliometrics, metadata and Web 2.0. The key areas covered are the healthcare information domain, the history of healthcare and its information environment, producers and users of healthcare information, healthcare information organization, healthcare information sources, services and retrieval, healthcare information and knowledge management. Readership: This book is written primarily for students of library and information science, LIS studying either at masters or advanced undergraduate level and also for practising information professionals and specialists who want to develop their knowledge and bring their skills up to date. It will also be of interest to anyone working in the field.
