Essentials of Chinese Medicine Zhanwen Liu, 2011-03-08

The Essentials of Chinese Medicine is a text book intended for international students who wish to gain a basic understanding of Chinese Medicine CM at the university level

The idea of writing such a text was originated from the Sino American Consortium for the Advancement of Chinese Medicine SACACM which was founded in February 2000

In 1995 the British Hong Kong Administration set up a Preparatory Committee for the Development of Chinese Medicine to look into ways of bringing Chinese medical practice and herbal trade under proper control and regulation

After the reunification of Hong Kong with mainland China in 1997 the Government of the Hong Kong Special Administrative Region continued the efforts to uplift the practice of CM to a fully professional level through legislation

To help bring up a new generation of professional CM practitioners the Hong Kong Baptist University HKBU obtained approval from the Government's university funding authority to develop a School of Chinese Medicine to prepare students who will meet the future professional requirements through public examinations

In order to establish itself quickly as a rigorous provider of university level CM education HKBU sought alliance with eight major CM universities in the Chinese Mainland and one US university which was interested in developing CM education within its medical college

As a result the Consortium known as SACACM was formed with ten founding institutions from Beijing Shanghai Nanjing Shandong Guangzhou Chengdu Heilongjiang Hong Kong and the United States
