[Hollywood Unions](#) Kate Fortmueller, Luci Marzola, 2024-12-13 *Hollywood Unions* is a unique collection that tells the stories of the unions and guilds that have organized motion picture and television labor IATSE the DGA SAG AFTRA and the WGA The Hollywood unions represent a wide swath of the workers making media from directors and stars to grips and makeup artists People today know some of these organizations from their glitzy annual awards celebrations but the unions actual importance is in bargaining with the Association of Motion Picture and Television Producers AMPTP on behalf of 331 000 workers in the motion picture and television industry The Hollywood unions are not neutral institutions but rather have long histories of jurisdictional battles

competitions with rival unions and industry altering strikes They have supported the industry s workers through the Great Depression World War II the McCarthy era the collapse of the studio system the rise of television runaway production fights for gender parity the digital revolution and a global pandemic The history of these unions has contributed to making media work sustainable in the long term and helped shape the conditions and production cultures of Hollywood Nuts and Bolts Filmmaking Dan Rahmel,2004 Nuts and Bolts Filmmaking an ideal book for the rapidly growing number of low budget filmmakers provides how to information on the day to day techniques of actual low budget production Containing construction details describing how to replicate expensive tools for under 30 a piece this book provides quick and inexpensive remedies to both the most common and most difficult production challenges Nuts and Bolts Filmmaking is an invaluable resource to anyone looking to make a film without a big budget **Never Done** Erin Hill,2016-10-05 Histories of women in Hollywood usually recount the contributions of female directors screenwriters designers actresses and other creative personnel whose names loom large in the credits Yet from its inception the American film industry relied on the labor of thousands more women workers whose vital contributions often went unrecognized Never Done introduces generations of women who worked behind the scenes in the film industry from the employees wives who hand colored the Edison Company s films frame by frame to the female immigrants who toiled in MGM s backrooms to produce beautifully beaded and embroidered costumes Challenging the dismissive characterization of these women as merely menial workers media historian Erin Hill shows how their labor was essential to the industry and required considerable technical and interpersonal skills Sketching a history of how Hollywood came to define certain occupations as lower paid women s work or feminized labor Hill also reveals how enterprising women eventually gained a foothold in more prestigious divisions like casting and publicity Poring through rare archives and integrating the firsthand accounts of women employed in the film industry the book gives a voice to women whose work was indispensable yet largely invisible As it traces this long history of women in Hollywood Never Done reveals the persistence of sexist assumptions that even today leave women in the media industry underpraised and underpaid For more information <http://erinhill.squarespace.com> **The Art of Movies** Nicolae Sfetcu,2014-05-06 Movie is considered to be an important art form films entertain educate enlighten and inspire audiences Film is a term that encompasses motion pictures as individual projects as well as in metonymy the field in general The origin of the name comes from the fact that photographic film also called filmstock has historically been the primary medium for recording and displaying motion pictures Many other terms exist motion pictures or just pictures or picture the silver screen photoplays the cinema picture shows flicks and commonly movies Making Film in Egypt Chihab El Khachab,2021-03-02 An ethnographic study of the Egyptian film industry The enormous influence of the Egyptian film industry on popular culture and collective imagination across the Arab world is widely acknowledged but little is known about its concrete workings behind the scenes Making Film in Egypt provides a fascinating glimpse into the lived reality of commercial film production in

today's Cairo with an emphasis on labor hierarchies production practices and the recent transition to digital technologies Drawing on in depth interviews and participant observation among production workers on set technicians and artistic crew members Chihab El Khachab sets out to answer a simple question how do filmmakers deal with the unpredictable future of their films The answer unfolds through a journey across the industry's political economy its labor processes its technological infrastructure its logistical and artistic work and its imagined audiences The result is a complex and nuanced portrait of the Arab world's largest film industry rich in ethnographic detail and theoretical innovations in media anthropology media studies and Middle East anthropology
