**Why We Work** Barry Schwartz, 2015-09 An analysis of the purpose of work in people's lives demonstrates how work operates in American culture and how everyday people can find happiness in the workplace explaining the importance of career goals

**The Long-Distance Team** Kevin Eikenberry, Wayne Turmel, 2023-02-28 Design and cultivate remote work teams that actually work From the experts who brought you The Long Distance Leader and The Long Distance Teammate comes the proven and practical guide for leaders to consciously design teams define and create their desired culture and encourage and nurture employee engagement all from a distance Team design and culture are often presented as separate concepts when they are in fact intertwined in the remote work setting Using the 3C model of communication collaboration and cohesion leaders will be given the tools to overcome challenges such as proximity bias and deteriorating social connections to create an environment where everyone can contribute and add value equally regardless of location The 3Cs are Communication While communication is a fundamental part of being human it is also a critical foundation of successful work Without it teams break down Collaboration Remote leaders face the misguided belief that physical presence is required to have a collaborative team The truth is that proximity has nothing to do with successful collaboration Cohesion This dimension includes decidedly nonstructural aspects such as relationships trust and accountability While difficult to measure a team's cohesion is critical to its success Using this framework leaders of all levels will learn to assess design and develop their communication channels methods for remote collaboration and ability to foster cohesion to build successful long distance teams While a hybrid culture will be different it can when done right be better than what existed before
