Planners Judy Allen,2009-12-09 Event planning never stops This industry goes 24 7 365 days a year Planners work evenings weekends and holidays often far away from their home base organizing and running events that simply must go on and go smoothly Missing a critical deadline is not an option in the event planning field Time management errors can cost a company a potential sale lose them an existing customer and damage their professional reputation Burnout and chaos are real risks in this hectic world of deadlines and multiple projects Planners often find themselves working down to the wire against crushing deadlines and a mountain of obstacles that impede their progress Too frequently there is not enough time to get the job done properly let alone to spend on personal or professional pursuits And for many involved in the event planning field there is the extra dimension of travel to factor in juggling multiple projects on a daily basis across a multitude of time zones For smooth event implementation and for business success it is essential that planners know how to manage their own time as well as they manage an event Time Management for Event Planners teaches readers how to successfully manage their workload and do what matters most when it matters most Analyze and prioritize tasks Structure your workload and your day for maximum performance Identify red flag activities that hinder productivity Reduce stress producing time crunches Identify when extra help is needed as well as how to delegate outsource and even partner with suppliers in crunch periods Work with rather than against deadlines Save time using technology Manage multiple projects even in multiple time zones Balance your personal and professional life Whether you are an event planner a hospitality professional in public relations or other related fields Time Management for Event Planners offers time saving tips techniques examples and expert insight that will help you get time on your side Studies in Block Planning Abdul Aziz,1983 *Metropolitan Management, Transportation and Planning* ,1909

Entrustable Professional Activities and Entrustment Decision-Making in Health Professions Education Olle ten Cate,Vanessa C. Burch,H. Carrie Chen,Fremen Chihchen Chou,Marije P. Hennis,2024-10-29 This book discusses the ins and outs of a new approach to competency based education in the education and training of health professionals including doctors and medical specialists but also nurses dentists pharmacists veterinarians physiotherapists and others Embedded in a conceptual discussion of what competence in health professionals means the book discusses theoretical foundations of trust and entrustment of trainees with the practice of patient care tasks It elaborates the implications for identifying the objectives of training formulated as entrustable professional activities EPAs for the associated curriculum development for assessment of trainees in the clinical workplace for faculty development and for the management of large scale change in health professions education In the past decade EPAs have been proposed piloted or implemented in all sectors of health professions education and in countries across all continents Yet there is a widely felt desire for a better understanding of all related concepts This text was written with teachers educational managers educational scholars and health profession trainees in mind The book is the result of a collaboration of fifty highly engaged authors all actively involved in their own projects and studies around EPAs and workplace based assessment as teachers developers and

managers All chapters have been critically read and commented on by internal and external reviewers making this work a state of the art document about the topic

Space Planning Basics Mark Karlen,2011-09-20 Space planning involves much more than sketching a preliminary floor plan A designer must take a client s programming needs into account and must also consider how other factors such as building codes and environmental factors affect a spatial composition Space Planning Basics now in its Third Edition offers a highly visual step by step approach to developing preliminary floor plans for commercial spaces The book provides tools for visualizing space and walks the designer through other considerations such as building code requirements and environmental control needs Specific programming techniques covered include matrices bubble diagrams CAD templates block plans and more New to this edition are coverage of the basics of stair design an essential aspect for planning spaces
