The Arab State

Nazih N. M. Ayubi

The Arab State:

The Arab State Giacomo Luciani, 1990-01-01 In its analysis of the process of state formation this essay collection breaks new ground Scholars from the Arab countries Europe and the United States present historical economic philosophical and sociological perspectives on the Arab states today and offer new paradigms for understanding the region These sixteen essays examine the roots of the contemporary Arab state system the durability of that system and the impact of its economic bases on its strengths and weaknesses The influence of the various social classes and of key social groupings such as the military is also shown and dispassionate non ideological views on the question of Arab integration are presented This timely collection interdisciplinary in its approach brings new and insightful material to the area of Middle Eastern studies It will be important reading for those seeking an understanding of this rapidly changing area as well as for students of comparative political systems In its analysis of the process of state formation this essay collection breaks new ground Scholars from the Arab countries Europe and the United States present historical economic philosophical and sociological perspectives on the Arab states today and offer new paradigms for understanding the region These sixteen essays examine the roots of the contemporary Arab state system the durability of that system and the impact of its economic bases on its strengths and weaknesses The influence of the various social classes and of key social groupings such as the military is also shown and dispassionate non ideological views on the question of Arab integration are presented This timely collection interdisciplinary in its approach brings new and insightful material to the area of Middle Eastern studies It will be important reading for those seeking an understanding of this rapidly changing area as well as for students of comparative political systems

Over-stating the Arab State Nazih N. Ayubi, 1996-12-31 The author's objective within this book is to place the Arab world within a theoretical and comparative framework that avoids both orientalist and fundamentalist insistence on the utter peculiarity and uniqueness of the region The book focuses in detail on eight Arab countries **The Arab States and the Arab League** Muhammad Khalil (LL. D.), 1962 **The Foreign Policies of Arab States** 'Alī al-Dīn Hilāl, 2010 This is an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East Not only are the elements of foreign policy discussed and presented as a whole region but the editors provide the established analytical framework by which each contributor in their individual chapters has analyzed and evaluated the foreign policies of nine Arab countries Their framework perceives foreign policy in the context of its environment domestic regional and global This edition has new material reflecting the earth shaking events at the end of the Cold War and the continuation of violence and terrorism **The Arab States and the Palestine Question** Aaron David Miller, 1986-05-19 Miller has written extensively on the Middle East and has been an analyst with the Department of State He is well acquainted with the so called Palestine Question The focus of the present study is upon the Palestinian cause and its less than full cooperative relationship with Jordan Syria and Egypt This volume is an excellent complement to Arthur Day's East Bank West Bank and is useful to the

serious student of Middle East politics Choice *The Arab State* Giacomo Luciani, 2015-07-24 It has often been argued that Arab states are arbitrary political creations lacking historical or present legitimacy This book first published in 1990 provides a different picture of the Arab state drawing on historical economic philosophical and sociological perspectives to give a balanced and convincing view of the complex reality of contemporary Arab politics The contributors from the Arab countries from Europe and the United States investigate the roots of the nation state in the Arab world evaluating in particular the economic bases of individual states They discuss the evolution of Arab societies and the way this is reflected in different states and examine the problems of domestic and international integration in the Arab context Original and comprehensive in its findings this is an essential text on the fundamental political structure of the Arab world Its interdisciplinary breadth makes possible an entirely new reading of the political reality of the Middle East *America and the Arab States* Robert W. Stookey, 1975 Events in the fall of 1973 made the American people suddenly aware of the importance of the Arab World to their well being The October War led to a brief but intense crisis with the Soviet Union highlighted by a worldwide alert of American military forces and a longer and more agonizing energy crunch created by the five month oil embargo imposed by the Arab producers People who had viewed the Middle East as a remote corner of the globe now realized how important this volatile area could be to American security and prosperity Foreword p v *Making Sense of the Arab State* Steven Heydemann, Marc Lynch, 2024-07-30 No region in the world has been more hostile to democracy more dominated by military and security institutions or weaker on economic development and inclusive governance than the Middle East Why have Arab states been so oppressively strong in some areas but so devastatingly weak in others How do those patterns affect politics economics and society across the region The state stands at the center of the analysis of politics in the Middle East but has rarely been the primary focus of systematic theoretical analysis Making Sense of the Arab State brings together top scholars from diverse theoretical orientations to address some of the most critically important questions facing the region today The authors grapple with enduring questions such as the uneven development of state capacity the failures of developmentalism and governance the centrality of regime security and survival concerns the excesses of surveillance and control and the increasing personalization of power Making Sense of the Arab State will be a must read for scholars of the Middle East and of comparative politics more broadly **Over-stating the Arab State** Nazih N. M. Ayubi, 1995 This study of politics and the role of the state in the Arab world is aimed at students of Middle East politics political theory and political economy Ayubi's main objective is to place the Arab world within a theoretical framework that avoids both orientalist and fundamentalist insistence on the utter peculiarity and uniqueness of the region He focuses on eight countries and deals with such issues as the emergence of social classes corporatism economic liberalization and the relationship between state and civil society **The Arab State and Women's Rights** Elham Manea, 2012-04-27 Researchers studying gender politics in Arab societies have been puzzled by a phenomenon common in many Arab states while women are granted suffrage rights they are often

discriminated against by the state in their private lives This book addresses this phenomenon maintaining that the Arab state functions according to a certain logic and patterns which have direct consequences on its gender policies in both the public and private spheres Using the features of the Arab Authoritarian state as a basis for a theoretical framework of analysis the author draws on detailed fieldwork and first hand interviews to study women s rights in three countries Yemen Syria and Kuwait She argues that the puzzle may be resolved once we focus on the features of the Arab state and its stage of development Offering a new approach to the study of gender and politics in Arab states this book will be of great interest to scholars and students of gender studies international politics and Middle East studies

The Foundations of the Arab State Ghassan Salame,2013-10-18 The Foundations of the Arab State deals with the conceptual historical and cultural environment in which the contemporary Arab state system was established and has evolved With contributions from established scholars in the field this volume addresses the major issues posed by the emergence of contemporary Arab states by their consolidation the role played by foreign powers in their creation and their future within the region

Challenges to the Cohesion of the Arab State Asher Susser,2008 The relative weakness of the Arab state system and the spread of radical Islam threaten to undermine the cohesion of some key Arab states How are they coping with these challenges To what extent are their efforts succeeding in maintaining cohesion of the Arab States This work seeks to examine these crucial questions

Beyond Coercion Adeed Dawisha,I. William Zartman,2015-07-24 This volume first published in 1988 analyses the process of stabilisation amongst the Arab states a process that has contradicted all predictions of impending disintegration and impending collapse Although there were some cases of disintegration there are evidently mechanisms at work that helped consolidate the majority of Arab states and the Arab state system Revolutions as in Iran or the Sudan or political collapse and disintegration as in Lebanon have been highly visible but nevertheless exceptions This collection Volume Three in the Nation State and Integration in the Arab World research project carried out by the Istituto Affari Internazionali focuses on the problem of explaining the stability and persistence of the state in the Arab world

The Arab State Adham Saouli,2012-03-29 This book explores the conditions of state formation and survival in the Middle East Based on Historical Sociology it provides a model for study of the state in the Arab world and a theory to explain its survival Examining states as a process the author argues that what emerged in the Middle East in the beginning of the twentieth century are social fields where states form and deform and not states as defined by Max Weber He explores the constitutions of these fields their cultural material and political structures and identifies three stages of state development in which different cases can be located Capturing the dilemmas that late forming states face as regimes within them cope with domestic and international pressure the author illustrates several Middle East cases and presents a detailed analysis of state developments in Saudi Arabia and Iraq He maintains that more than the domestic characteristics of individual states state survival in the Middle East is also a function of the anarchic nature of the international and by extension the regional states

system The first to raise the question on the survivability of the territorial states in the Middle East while engaging with both International Relations and Comparative Politics theories this book will be of interest to students and scholars of Middle East politics Comparative Politics and International Relations The Arab States and the Arab League Muhammad Khalil (LL. D.), League of Arab States, 1962 , **The Foreign Policies Of Arab States** Bahgat Korany, Ali El-Din Hillal Dessouki, 2019-07-09 Middle East politics have been proverbial for their changeability The 1970s ushered in petro politics for instance but OPEC's international status declined markedly in the following decade Similarly the Arab world's ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s the late 1980s also brought PLO acceptance of the State of Israel Interstate relations were not the only arena to experience significant alterations state society relations also underwent dramatic changes such as the acceleration of privatization in erstwhile socialist regimes Then the 1990s opened with a political earthquake the Gulf Crisis The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984 including an early analysis of the effects of Iraq's invasion of Kuwait and the subsequent coalition victory over Iraq In addition the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan the region's link to sub-Saharan Africa Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power Moreover in many of its chapters the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change **The Maccabæan** , 1920 **President Kennedy's Policy Toward the Arab States and Israel** Mordechai Gazit, 1983 The League of Arab States Arab Office (Washington, D.C.), 1946

Fuel your quest for knowledge with Authored by is thought-provoking masterpiece, Dive into the World of **The Arab State** .
