## **The Architecture:**

**The Architect** Arthur Holland Forbes, 1928      [The Architecture of Community](#) Leon Krier, 2009-05-08 Leon Krier is one of the best known and most provocative architects and urban theoreticians in the world. Until now, however, his ideas have circulated mostly among a professional audience of architects, city planners, and academics. In *The Architecture of Community*, Krier has reconsidered and expanded writing from his 1998 book *Architecture: Choice or Fate*. Here, he refines and updates his thinking on the making of sustainable, humane, and attractive villages, towns, and cities. The book includes drawings, diagrams, and photographs of his built works, which have not been widely seen until now.

**Why Architecture Matters** Paul Goldberger, 2009-11-03 *Why Architecture Matters* is not a work of architectural history or a guide to the styles or an architectural dictionary, though it contains elements of all three. The purpose of *Why Architecture Matters* is to come to grips with how things feel to us when we stand before them, with how architecture affects us emotionally as well as intellectually, with its impact on our lives. Architecture begins to matter, writes Paul Goldberger, when it brings delight and sadness and perplexity and awe along with a roof over our heads. He shows us how that works in examples ranging from a small Cape Cod

cottage to the vast flowing Prairie houses of Frank Lloyd Wright from the Lincoln Memorial to the highly sculptural Guggenheim Bilbao and the Church of Sant Ivo in Rome where simple geometries create a work of architecture that embraces the deepest complexities of human imagination Based on decades of looking at buildings and thinking about how we experience them the distinguished critic raises our awareness of fundamental things like proportion scale space texture materials shapes light and memory Upon completing this remarkable architectural journey readers will enjoy a wonderfully rewarding new way of seeing and experiencing every aspect of the built world
