- Personality is the unique way in which each individual thinks, acts, and feels throughout life.
- Four main viewpoints in personality theory:
  - (1) The psychodynamic perspective – Focuses on the role of the \_\_\_\_\_ mind in the development of personality.
  - (2) The behaviorist perspective – Is based on the theories of \_\_\_\_\_.
  - (3) The humanistic perspective – Focuses on the role of each person's \_\_\_\_\_ life experiences and choices in personality development.
  - (4) The trait perspective – In lieu of trying to explain the process that causes personality to form into its unique characteristics, trait theorists are more concerned with the end result- the \_\_\_\_\_ themselves.
