

DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility design standards are limited to only the oldest people being and exclude many who might otherwise use them.

IN AN AGE OF GROWING POPULATION that has grown significantly and quickly since the 1980s, it is essential to design transportation systems that are accessible to all. This includes people of all ages and abilities. The National Association of City Transportation Officials (NACTO) is committed to creating a more inclusive and equitable transportation system for all.

Urban Bikeway Design Guide

National Association of City Transportation Officials

Third Edition

OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive

The third edition of the Urban Bikeway Design Guide provides updated guidance on how to design bike facilities that are safe, sustainable, and equitable for all. It includes new information on how to design bike facilities that are accessible to people of all ages and abilities, and how to design bike facilities that are safe and sustainable for all.
