*Proceeding of the 24th International Conference on Industrial Engineering and Engineering Management 2018* George Q. Huang, Chen-Fu Chien, Runliang Dou, 2019-01-12 This book records the new research findings and development in the field of industrial engineering and it will serve as the guidebook for the potential development in industrial engineering and smart manufacturing. It gathers the accepted papers from the 24th International conference on Industrial Engineering and Engineering Management held at Central South University of Forestry and Technology in Changsha during May 19-20, 2018. The aim of this conference was to provide a high level international forum for experts, scholars, and entrepreneurs at home and abroad to present the recent advances, new techniques, and applications to promote discussion and interaction among academics, researchers, and professionals to promote the developments and applications of the related theories and technologies in universities and enterprises and to establish business or research relations to find global partners for future collaboration in the field of Industrial Engineering. It addresses diverse themes in smart manufacturing, artificial intelligence, ergonomics, simulation, and modeling, quality and reliability, logistics, engineering, data mining, and other related fields. This timely book summarizes and promotes the latest achievements in the field of industrial engineering and related fields over the past year, proposing prospects and vision for the further development.

Reshaping Environmental Science Through Machine Learning and IoT Gupta, Rajeev Kumar, Jain, Arti, Wang, John, Pateriya, Rajesh Kumar, 2024-05-06 In the face of escalating environmental challenges such as climate change, air and water pollution, and natural disasters, traditional approaches to understanding and addressing these issues have yet to be proven sufficient. Academic scholars are compelled to seek innovative solutions that marry digital intelligence and natural ecosystems. *Reshaping Environmental Science Through Machine Learning and IoT* serves as a comprehensive exploration into the transformative potential of Machine Learning (ML) and the Internet of Things (IoT) to address critical environmental challenges. The book establishes a robust foundation in ML and IoT, explaining their relevance to environmental science. As the narrative unfolds, it delves into diverse applications, providing theoretical insights alongside practical knowledge. From interpreting weather patterns to predicting air and water quality, the book navigates through the intricate web of environmental complexities. Notably, it unveils approaches to disaster management, waste sorting, and climate change monitoring, showcasing the symbiotic relationship between digital intelligence and natural ecosystems. This book is ideal for audiences from students and researchers to data scientists and disaster management professionals, with a nuanced understanding of IoT, ML, and Artificial Intelligence (AI).

**Development and Social Change** Philip McMichael, Heloise Weber, 2024-12-17 *Development and Social Change* explores the historical, socio-political, and ecological aspects of development. The Eighth Edition critically engages with the concept of development, tracing its roots and examining its implications in the contemporary world. Authors Philip McMichael and Heloise Weber use case studies and examples to help describe a complex world in transition. Students are encouraged to

see global development as a contested historical project By showing how development stems from unequal power relationships between and among peoples and states often with planet threatening environmental outcomes it enables readers to reflect on the possibilities for more just social ecological and political relations

**Innovation in Food Ecosystems** Paola De Bernardi, Danny Azucar, 2019-11-28 This book addresses the intersections of entrepreneurship innovation and sustainability in food systems and presents high quality research illustrating the central role that food consumption and production play in achieving sustainability goals Entrepreneurship and innovation have become particularly relevant aspects in the European Union EU especially since the Sustainable Development Goals SDGs were announced in 2015 In many cases innovations tend to arise from small and medium sized enterprises and from completely new entrepreneurial endeavors This book represents essential reading for researchers and young academics seeking to reduce disparities and inequalities in food production and consumptions patterns By encouraging sustainable entrepreneurship and innovation it will also help young scholars find support for their startup ideas

**Urban Narratives: Exploring Identity, Heritage, and Sustainable Development in Cities** Mohd Fairuz Shahidan, Gasim Hayder Ahmed Salih, Alessio Cardaci, Israa Hanafi Mahmoud, 2024-03-19 This book engages readers in an enlightening exploration of cities identities sustainability and urban development Delving into the intricate interplay between art architecture and the urban landscape it offers a compelling analysis of the factors that shape cities and their distinct personalities The volume uncovers captivating stories of cities as they navigate the delicate balance between heritage conservation and modernity It highlights innovative strategies employed to preserve historical sites while adapting to the demands of a rapidly changing world Full of insightful discussions on the impact of cultural lifestyles the fusion of architectural styles and the challenges and triumphs of sustainable urban development it draws upon a diverse range of perspectives and research inviting architects urban planners and scholars to delve into the intricate nuances of cities identities in the process With its informative and engaging narrative this book provides a fresh perspective on cities identities and offers practical insights into shaping vibrant livable urban landscapes

*Concepts, Policies and Technology for Sustainable Buildings* Thanuja Ramachandra, Roshani Palliyaguru, Gayani Karunasena, 2025-07-12 This book presents knowledge on sustainability concepts policies and technologies adopted in both developed and developing countries The book covers five themes a advancing sustainability building rating systems b promoting retrofitting buildings and warranting energy efficient buildings c realizing water efficiency within building structures d application of the circular economy to manage waste and e enhancing the health and well being of building occupants The first theme includes case study based evidence and solutions to different rating systems used in different countries The second and third themes mainly focus on the achievement of sustainability under the key parameters of energy efficiency and water efficiency through the application of various techniques and technologies such as green roofs green walls and grid tied solar photovoltaic technology with a special emphasis on retrofitting techniques in

different case study contexts The fourth theme primarily addresses the need to clarify misconceptions surrounding the concept of the circular economy within the construction industry It explores its broader applications in various contexts aiming to uncover opportunities for knowledge expansion and transfer across different countries The fifth and final theme of the book addresses various good practices and tools developed to enhance the health and well being of building occupants with a primary focus on how such things help achieve sustainable buildings

**The Trillion Dollar Shift** Marga Hoek, 2018-01-12 Winner of the Gold Axiom Business Book Award 2019 in the Philanthropy Non Profit Sustainability category Over the past 30 years the world has seen great social improvements Technology has been developing at an enormous pace and is helping to solve our most pressing social and environmental challenges Yet despite this success our current model of development is still deeply problematic Natural disasters triggered by climate change have doubled since the 1980s violence and armed conflict now cost more than 13 percent of GDP social inequality and youth unemployment is worsening around the world and climate change threatens the global population with tremendous environmental as well as social problems Using the United Nations Sustainable Development Goals as a framework this book sets out how business and capital now have a real opportunity to help resolve these problems With clear and plentiful examples and cases of how businesses are making a difference relevant facts and figures to support the cases and inspiring and instructional information on how businesses can create sustainable value this highly readable book is a must read for businesses large and small that wish to genuinely support the delivery of the SDGs The Paris Climate Agreement and the Sustainable Development Goals SDGs drive change and offer a narrative and an opportunity to all to speak in one language

on sustainability They provide us with a clear set of targets for 2030 Through following the SDGs opportunities abound for business and capital to unlock markets which offer endless potential for profit while at the same time working towards the Sustainable Development Goals This book illustrates for business how to make the much needed Trillion Dollar Shift

*Environmental Engineering* James R. Mihelcic, Julie B. Zimmerman, 2021-08-03 Focuses on modern sustainable design concepts processes and practices Applies foundational principles of physics chemistry biology and sustainability to creating solutions for managing and mitigating environmental problems Places emphasis on global issues such as pollution prevention and resource recovery Explains energy and mass balance concepts using numerous clear and engaging example problems Provides a coherent and unified approach to life cycle assessment and thinking development Features effective pedagogical tools including numerical assessment and design problems research activities discussion topics and extensive online learning resources Includes extensive teaching materials for instructors such as active learning exercises homework assignments classroom activities and a solutions manual

Global Excellence in Sustainability: Europe Maria Alzira Pimenta Dinis, Elisabeth Süßbauer, Nikos Kalogeras, 2026-02-16 Frontiers in Sustainability welcomes researchers from around the world to contribute to a special edition Research Topic emphasizing the crucial role of global collaboration in driving scientific progress in Sustainability This initiative aims to showcase the cutting edge developments in Sustainability on a global scale underscoring the academic excellence and impactful contributions of internationally recognized researchers This collection seeks to illuminate recent advancements spanning the entire spectrum of Sustainability with a specific focus on research conducted in Europe By assembling diverse perspectives the goal is to provide a comprehensive overview of the achievements and challenges encountered by researchers working collaboratively across borders Contributions from researchers in the Humanities are particularly encouraged recognizing the interdisciplinary nature of sustainable development We welcome a variety of contributions including original research articles comprehensive review papers perspectives that offer unique insights and opinion pieces that stimulate thoughtful discourse The emphasis is on fostering an inclusive dialogue surrounding the accomplishments and obstacles within the Sustainability domain specifically within the European context Authors based at European institutions are encouraged to submit their work and we also extend an invitation to researchers affiliated with non European institutions Submissions from the latter group will be assessed on a case by case basis reflecting our commitment to promoting a diverse and globally collaborative perspective on Sustainability Potential topics to explore include Sustainable consumption and production Exploring initiatives to change consumption levels and shorten supply chains Circular economy practices Investigating the adoption and impact of circular economy principles in European industries including how these contribute to the energy transition Climate change adaptation and resilience Assessing innovative approaches and policies aimed at mitigating climate change effects and improving climate resilience Social equity in sustainability Investigating the intersection of sustainability goals with social justice and equity

considerations Resource reduction Examining innovative ways to reduce non renewable resources adopting more sustainable alternative materials and safe and sustainable waste disposal Authors are encouraged to explore these topics and related areas contributing to the global discourse on sustainable practices and strategies By uniting researchers from diverse backgrounds this Research Topic aims to inspire collaborative efforts that address the complex challenges facing our planet

□□□□ ,2007 **Industry and Environment** ,2004 **Governance of Integrated Product Policy** Dirk Scheer,Frieder Rubik,2006 European policy patterns are in a state of transformation New governance models are shifting power away from states and toward the involvement of all stakeholders and the idea of shared responsibility It s a move from command and control to push and pull What s in this new approach for the environment This book provides a detailed analysis of the example of integrated product policy IPP which aims to improve the environmental performance of products and services through their life cycle All products cause environmental degradation in some way whether from their manufacturing use or disposal The life cycle of a product is often long and complicated It covers all the areas from the extraction of natural resources through their design manufacture assembly marketing distribution sale and use to their eventual disposal as waste At the same time it also involves many different actors such as designers manufacturers marketers retailers and consumers IPP attempts to systematically stimulate each phase of this complicated chain to improve its environmental performance With the involvement of so many different products and actors there cannot be one simple policy measure for everything Instead IPP employs a whole variety of tools both voluntary and mandatory which are used to achieve identified objectives These include economic instruments the phase out of dangerous materials voluntary agreements eco labelling and product design guidelines IPP is still in relative infancy and can be seen as an ongoing process hugely dependent on effective governance measures to ensure its continued success This book presents a plethora of perspectives from policy makers researchers and consultancies representatives from business environmental and consumer associations on how to effectively conceptualise institutionalise and implement IPP The book is divided into four parts First the approach to the governance of IPP is examined in relation to other approaches to sustainable production and consumption Second the widely differing approaches to environmental product policy in practice at national supranational and global level are analysed Third the book explores the challenge of designing a coherent policy mix to support the integration of sustainable consumption and production patterns by sector and theme Finally the book concentrates on the key issue of how to involve stakeholders in IPP in order to encourage continuous innovations for sustainability throughout the value chain Governance of Integrated Product Policy aims to fill a clear gap in work to date on sustainable production and consumption by providing researchers and practitioners from politics business and civil society new insights into modern environmental governance in practice **Direct Digital Manufacturing and Polymers** Geoffrey R. Mitchell,Nuno Alves,Artur Mateus,2019-04-09 2nd International Conference on Direct Digital Manufacturing and Polymers 2nd CDDMAP Selected peer reviewed papers from the 2nd International
