**The Big Backyard** Ron Miller, 2023-03-07 Thousands of years ago humans believed that Earth was the center of the universe that the world they lived on was all there was Truthfully the solar system extends almost halfway to the nearest star And it is composed of not only planets asteroids and comets but also powerful forces and vast fields of energy This is our solar system s big backyard The cold dark world that lies at the farthest reaches of our solar system holds a vast collection of secrets and for most of human history we had no idea anything was out there But driven by curiosity and equipped with new technology astronomers have determined that beyond the orbit of Neptune are countless icy comets strange particles that dance under the influence of the sun and signs of undiscovered planets To learn more about these far flung objects scientists have finally begun to explore the distant solar system finding answers to age old questions at the same time that they encounter new mysteries With Ron Miller s incredible illustrations and photographs from NASA probes and telescopes *The Big Backyard* takes us on a tour through the solar system s most obscure neighborhoods and into its darkest corners to places beyond the limits of the human eye Miller expertly describes the formation of the solar system and the history of the exploration of the outer solar system before delving into the latest discoveries and missions Read on to learn what sorts of objects orbit at such extreme distances what happens at the boundary between the sun s influence and interstellar space whether there is such a thing as the mysterious Planet X and how life on Earth could not exist without the happenings at the edge of the solar system

**Return of the Golden Age** Edward F.

Malkowski,2013-12-17 The truth behind ancient myths and the return of the celestial conditions for a Golden Age of peace and abundance Reveals the events preserved in myth that launched humanity into 12 000 years of struggle selfishness and false beliefs Explores how we can initiate a new Golden Age through ancient Egyptian teachings on the creative power of our imaginations Explains how our world system of economics which benefits a few at the expense of the many arose as a reaction to global catastrophe in prehistory Since the beginning of recorded history humanity has been in a continuous struggle over land and resources It continues today despite the abundance we have created through scientific innovation and technology Why such a struggle for resources exists has never been explained Neither has the human drive to own accumulate and hoard Edward Malkowski reveals that the answer lies in recognizing the reality behind humanity's earliest myths He shows that the opportunity is at hand to transcend these inherited selfish traits and return to a Golden Age of peace and abundance Malkowski explores the hidden meaning behind stories such as the Epic of Gilgamesh Plato's Atlantis and myths of a new sky and a new sun of great floods and the death of the gods and of the preceding Golden Age He connects these myths to a real extinction event that occurred 12 000 years ago He explains how the survivors our ancestors were catapulted from utopia into a world of scarcity scarring the collective mind of humanity and initiating the struggle for resources in an attempt to regain our lost paradise He shows how our world system of economics focused on ownership and based on the false belief of separateness benefitting a few at the expense of the many arose as a reaction to this catastrophe Drawing on the pre catastrophe teachings preserved by the ancient Egyptians Malkowski reveals that we are returning to a celestial configuration parallel to that of the past Golden Age Through our collective DNA memory and the creative power of our imaginations we can end our 12 000 year quest to regain paradise lost and launch a new Golden Age of unity abundance and equality for all humanity
