Strategic Defenses And Arms Control:

Strategic Defenses and Arms Control Alvin Martin Weinberg, Jack N. Barkenbus, 1988 **SDI and arms control** Howard G. Dewolf, 1989 **Reykjavik and Beyond** Committee on International Security and Arms Control, 1988-01-15 No more important issue faces us today than the future success of efforts to manage and control nuclear arsenals Reykjavik and Beyond represents the careful consideration of this subject by a group of experts deeply involved in arms control The authors consider what changes in force structures strategic thought and political relations would be necessary to make possible large reductions in the superpowers nuclear arsenals They also examine how very deep cuts would affect other aspects of the military balance and the political and international order more broadly *Arms Control and Strategic Stability* University of Virginia. Center for Law and National Security. Seminar, 1986-07-30 In this collection leading arms control experts focus on the impact of new weapons technology the START and INF negotiations treaty verification and compliance and confidence building and risk reduction measures Co published with the Center for Law and National Security University of Virginia

The Reagan strategic defense initiative : a technical, political, and arms control assessment Sidney D. Drell, Philip J. Farley, David Holloway, 1984 *Missile Defenses and Western European Security* Robert M. Soofer, 1988-11-22 *Missile Defenses and Western European Security* is an important contribution to the current debate on how new weapons initiatives will affect prospects for world peace Soofer generously sprinkles the book with relevant quotes from high ranking NATO officials respected academicians and military policy experts thus enhancing the readers understanding of the subject Friday Review of Defense Literature The NATO alliance has come under increasing strain since President Reagan s announcement of plans for the strategic defense initiative SDI in March 1983 This study examines the logic underlying Western European reactions to SDI and assesses the validity of European anxieties about missile defenses Systematically analyzing the positions of France Britain and West Germany on the full spectrum of NATO defense issues the author attempts to determine whether strategic and tactical missile defenses can in fact contribute to U S and Western security In his introduction the author traces the history of NATO s doubts concerning the strategic nuclear guarantee which were frequently expressed after the Soveits first successful missile launches in the late 1950s He next looks at Western European reactions to the SDI announcement and NATO s strategic thinking on deterrence and escalation He discusses the relation between arms control considerations and the strategic defense initiative focusing on NATO fears that SDI would lead to the abrogation of the 1972 ABM Treaty and with it the end of the arms control process Turning to antitactical missile defense Soofer argues that despite political opposition there exists a substantial strategic rationale for missile defenses deployed in Western Europe Offering clarification and new perspectives on many complex defense issues *Missile Defenses and Western European Security* will be an important contribution to the current debate on how new weapons initiatives will affect prospects for world peace This timely book is for specialists students and academics in the fields of strategic studies peace studies arms control diplomacy and

international relations **Strategic Power and National Security** J. I. Coffey, 2010-11-23 In this closely reasoned and lucid analysis an important thinker on American strategy surveys weapons technology and its military and political implications for the 1970s J I Coffey refutes the argument that American national security requires superior strategic offensive forces or extensive air and missile defenses In so doing he assesses in simple terms the various factors involved in this complex and difficult subject While many books on strategy deal only with a single area or a particular weapons system this work synthesizes technical and non technical considerations across the whole range of national security issues affected by strategic power war fighting deterrence Communist behavior alliance relationships nuclear proliferation and arms control Its orderly and authoritative marshaling of tabulated data its citations from Department of Defense documents and congressional hearings and its classifications of the alternative options which strategy makers can now pursue are all invaluable to both the student of national security and the professional strategist **Interaction Between Strategic Defenses and Arms Control** Gregory H. Canavan, Center for National Security Studies (Los Alamos National Laboratory), 1987 *Unresolved Issues in Arms Control* Kenneth W. Thompson, 1988 This multi authored volume by scientists and strategic thinkers presents a broad spectrum of American thought and opinion on arms control Particularly on the highly controversial issue of the Strategic Defense Initiative their thinking mirrors the diverse conclusions of the citizenry and the public The focus of this volume is on unresolved issues and problems such as SDI but also antisatellite weapons in space verification and compliance and nuclear terrorism Contributors Dr Edward Teller General James A Abrahamson Dr John Kogut Townsend Hoopes Dr Paul Stares Richard Scribner and Dr Paul Leventhal *Ballistic missile defense technologies.* , 1985 *SDI And/or Arms Control* David A. Ochmanek, Rand Corporation, 1987 This paper suggests a framework that relates U S policies regarding the Strategic Defense Initiative SDI and arms control to fundamental objectives of U S security deterring aggression and limiting damage should deterrence fail The paper argues that an early deployment of a nationwide ballistic missile defense is unnecessary and might undermine rather than strengthen U S security The United States should consider deployment of such defenses only when it becomes clear that they could fundamentally improve U S security by assuring national survival in the event of a nuclear attack Because the weight of evidence indicates that assured survival would be feasible only in cooperation with the Soviet Union the paper concludes that the SDI depends on arms control to be viable as anything more than a modest research program Rand abstracts *Strategic Defense in the 21st Century* Hans Binnendijk, 1986 **Arms Control** William Roscoe Kintner, 1987 *Arms Control, the FRG, and the Future of East-West Relations* Wolfram F. Hanrieder, 2019-04-05 The political dimension of arms control has always had special significance for the Federal Republic of Germany not only because of the issue of a divided Germany and a partitioned Europe but also because of the country s key position in the Western security alliance In the wake of NATO s recent decision to deploy more nuclear weapons on German soil and in the absence of progress on arms control it has

become clear that arms control measures and negotiations have assumed an importance far beyond their military technical components fundamental questions about the nature of East West relations and the future shape of the transatlantic alliance and the European political order also have been raised These essays explore the implications of arms control negotiations for the Federal Republic of Germany and consider why Germany has traditionally found it impossible to divorce considerations of arms control from their larger political context

Understanding Nuclear Weapons and Arms Control Teena Mayers,1986

Strategic Defences in the 1990's Ivo H. Daalder,1991-06-18 Examines the value of deploying strategic missile defences to counter the threat of nuclear accidents It concludes that the deployment of strategic defences in the 1990s will not be strategically desirable technically feasible or economically affordable

A Suggested Policy Framework for Strategic Defenses Glenn A. Kent,1986 This study proposes a framework for considering U S policy with regard to the Strategic Defense Initiative SDI

The framework takes account of the basic goals and strategies for the security of the United States and its allies the reasons for the SDI technology program the purposes and missions of strategic or nationwide defenses and the relationship of these matters to arms control It establishes national survival a fundamental goal of the United States and its allies as the central goal of strategic defenses The framework relieves the tension between the advocacy of SDI on the one hand and the basic U S strategy of deterrence and arms control on the other
