Technology control, competition and national security Bernard L. Seward,1987 National Security Affairs Conference : Long Range US-USSR Competition : National Security Implications ,1976 **Long Range US-USSR Competition -**

National Security Implications ,1976 **Commercial Competition and National Security** Claus Hofhansel,1996-08-23

U S and German export control policies are compared showing how these policies have responded to the changes in the international environment including the end of the Cold War The policy differences are explained through an analysis of differences in state interests and external constraints state strategies domestic support for export controls and institutional constraints on policy change The conclusion put forward is that despite a partial convergence of U S and German export control policies in the 1990s diplomatic conflicts between the U S and European governments over export control issues will continue to erupt

U.S. National Security Export Controls Arvind Parkhe,1990 *Technology Control, Competition and National Security* Bernard L. Seward (Jr.),1987 **National Security** Hyun-Kun Yoon,1991 *Balancing the National Interest* National Academy of Sciences, National Academy of Engineering, Institute of Medicine,Committee on Science, Engineering, and Public Policy,Panel on the Impact of National Security Controls on International Technology

Transfer,1987-02-01 The U S national security export controls system which was instituted to impede Soviet acquisition of high technology from the West is both necessary and appropriate *Balancing the National Interest* provides a thorough analysis of this controls system examining the current system of laws regulations international agreements and organizations that control the international transfer of technology through industrial channels Foreign Affairs calls it the best on the subject to have been published in the 40 years that the United States has exercised controls on exports that might add to Soviet power

Beyond 'Fortress America' National Research Council,Policy and Global Affairs,Development, Security, and Cooperation,Committee on Scientific Communication and National Security,Committee on Science, Security, and Prosperity,2009-05-30 The national security controls that regulate access to and export of science and technology are broken As currently structured many of these controls undermine our national and homeland security and stifle American engagement in the global economy and in science and technology These unintended consequences arise from policies that were crafted for an earlier era In the name of maintaining superiority the U S now runs the risk of becoming less secure less competitive and less prosperous *Beyond Fortress America* provides an account of the costs associated with building walls that hamper our access to global science and technology that dampen our economic potential The book also makes

recommendations to reform the export control process ensure scientific and technological competitiveness and improve the non immigrant visa system that regulates entry into the United States of foreign science and engineering students scholars and professionals Beyond Fortress America contains vital information and action items for the President and policy makers that will affect the United States ability to compete globally Interested parties including military personnel engineers scientists professionals industrialists and scholars will find this book a valuable tool for stemming a serious decline affecting broad areas of the nation s security and economy

Export Control and WMD Nonproliferation Law Wei Luo,2009
Technology Transfer in a Changing National Security Environment ,1990 This paper examines U S export control with particular emphasis on technology transfer as it affects our relationship with Japan It describes the evolution of export control in the United States including the Bucy Report the impact of Afghanistan and policy changes regarding the People s Republic of China U S control mechanisms for critical technology currently in place are described these include the Export Administration Regulations the International Traffic in Arms Regulations ITAR and the Militarily Critical Technologies List MCTL The evolution of Japan s technology base and export control mechanisms are discussed as well as its military capabilities Japan and the United States have had different philosophies regarding export control with the United States more likely to use controls as part of its foreign policy However U S export control policy is increasingly seen as having an important economic security aspect in addition to its national security objectives Changes in Eastern Europe and the Soviet Union have placed the issue of export control in a new perspective Therefore the paper also examines in some detail the major developments in the European community which will affect the future technology environment and its relationship to national security This paper was originally presented at a workshop of the Japan U S Joint Study Group on Trade Finance and Technology in East West Economic Relations A primary purpose of the paper was to enhance mutual understanding between the United States and Japan and to facilitate the resolution of differences in the technology security arena
