## **The Poet:**

*Romanticism, Medicine, and the Poet's Body* James Robert Allard, 2007-01-01 James Allard's book restores the physical body to its proper place in Romantic studies by exploring the status of the human body during the stunning historical moment that witnessed the emergence of Romantic literature alongside the professionalization of medical practice. His central subject is the Poet Physician, a hybrid figure in the works of the medically trained Keats, Thelwall, and Beddoes, who embodies the struggles over discrepancies and affinities between medicine and poetry.

**The Poet's Wisdom** Timothy Kircher, 2006 The book explores the philosophical thinking of Petrarch and Boccaccio in contrast to the writings of contemporary mendicants. Examining both Latin and vernacular works, it investigates how these humanists poetically express the temporal, subjective, and emotional quality of moral sensibility in a way that shifts to the reader the weight of discerning the ethical message. The book centers its analysis on a series of paradoxes pondered by these humanists: the self that changes yet persists over time, the awareness of self-deception, the individual's validation of authority, and the ethics of pleasure. This study is valuable to those interested in Renaissance philosophy, literature, religion, and the history of ideas.
