The Poetics:

The Poetics of Aristotle Aristotle, 2016-07-07 *The Poetics of Aristotle* By Aristotle A Translation By S H Butcher Aristotle's *Poetics* c 335 BCE is the earliest surviving work of dramatic theory and the first extant philosophical treatise to focus on literary theory In it Aristotle offers an account of what he calls poetry a term which in Greek literally means making and in this context includes drama comedy tragedy and the satyr play as well as lyric poetry and epic poetry They are similar in the fact that they are all imitations but different in the three ways that Aristotle describes Differences in music rhythm harmony meter and melody Difference of goodness in the characters Difference in how the narrative is presented telling a story or acting it out In examining its first principles Aristotle finds two 1 imitation and 2 genres and other concepts by which that of truth is applied revealed in the poesis His analysis of tragedy constitutes the core of the discussion Although Aristotle's *Poetics* is universally acknowledged in the Western critical tradition almost every detail about his seminal work has aroused divergent opinions The work was lost to the Western world for a long time It was available in the Middle Ages and early Renaissance only through a Latin translation of an Arabic version written by Averroes

The Poetics of Information Overload Paul Stephens, 2015-07-30 Information overload is a subject of vital ubiquitous concern in our time *The Poetics of Information Overload* reveals a fascinating genealogy of information saturation through the literary lens of American modernism Although technology has typically been viewed as hostile or foreign to poetry Paul Stephens outlines a countertradition within twentieth and twenty first century literature in which avant garde poets are centrally involved with technologies of communication data storage and bureaucratic control Beginning with Gertrude Stein and Bob Brown Stephens explores how writers have been preoccupied with the effects of new media since the advent of modernism He continues with the postwar writing of Charles Olson John Cage Bern Porter Hannah Weiner Bernadette Mayer Lyn Hejinian and Bruce Andrews and concludes with a discussion of conceptual writing produced in the past decade By reading these works in the context of information systems Stephens shows how the poetry of the past century has had as a primary focus the role of data in human life

Aristotle: The Poetics Aristotle, 1927 **The Poetics of Aristotle** Aristotle, 1907 **A Bibliography of the Poetics of Aristotle** Lane Cooper, Alfred Gudeman, 1928 [The Poetics of Ancient and Classical Arabic Literature](#) Esad Durakovic, 2015-04-24 Through analysing ancient and classical Arabic literature including the Qur'an from within the Arabic literary tradition this book provides an original interpretation of poetics and of other important aspects of Arab culture Ancient Arabic literature is a realm of poetry prose literary forms emerged rather late and even then remained in the shadow of poetic creative efforts Traditionally this literature has been viewed through a philologist's lens and has often been represented as materialistic in the sense that its poetry lacked imagination As a result Arabic poetry was often evaluated negatively in relation to other poetic traditions *The Poetics of Ancient and Classical Arabic Literature* argues that old Arabic literature is remarkably coherent in poetical terms and has its own individuality and that claims of its

materialism arise from a failure to grasp the poetic principles of the Arabic tradition Analysing the Qur an which is known for confronting the poetry of the time this book reveals that post Qur anic literature came to be defined against it Thus the constitution and interpretation of Arabic literature imposed itself as a particular exegesis of the sacred Text Disputing traditional interpretations by arguing that Arabic literature can only be assessed from within and not through comparison with other literary traditions this book is of interest to students and scholars of Islamic Studies Arabic Studies and Literary Studies

The Poetics of Aristotle Aristoteles,1911 **The poetics of Aristotle, its meaning and influence** Lane Cooper,1923 **The Poetics of Alfarabi and Avicenna** S. Kemal,2021-09-20 This book is an important and original study of medieval Arabic theories of poetics It examines the commentaries on Aristotle s Poetics by Alfarabi and Avicenna placing them fully in the context of the Arabic development of Aristotle s logical theory In this the author breaks new ground showing how the philosophers justified the logical and moral power of poetics discourse Its concern for philosophical issues in the Classical Arabic tradition distinguishes this book from other studies of literary theory *The Poetics* Aristotle,2016-11-24 Among the most influential books in Western civilization Aristotle s Poetics is really a treatise on fine art Taking examples from the plays of Aeschylus Sophocles and Euripides the Poetics introduced into literary criticism such central concepts as mimesis imitation hamartia error and katharsis Aristotle s conception of tragedy i e the depiction of a heroic action that arouses pity and fear in the spectators and brings about a catharsis of those emotions has helped perpetuate the Greek ideal of drama to the present day This book is part of the QED paper Classics Collection that is now available on Amazon *The Poetics of Aristotle in England* Marvin Theodore Herrick,1930 *The Poetics of Aristotle, ed. with notes and a tr. by S.H. Munteanu,2020-03-18 This volume

integrates aspects of the Poetics into the broader corpus of Aristotelian philosophy. It both deals with some old problems raised by the treatise suggesting possible solutions through contextualization and also identifies new ways in which poetic concepts could relate to Aristotelian philosophy. In the past contextualization has most commonly been used by scholars in order to try to solve the meaning of difficult concepts in the Poetics such as catharsis, mimesis, or tragic pleasure. In this volume rather than looking to explain a specific concept, the contributors observe the concatenation of Aristotelian ideas in various treatises in order to explore some aesthetic, moral, and political implications of the philosopher's views of tragedy, comedy, and related genres. Questions addressed include: Does Aristotle see his interest in drama as part of his larger research on human nature? What are the implications of tragic plots dealing with close family members for the polis? What should be the role of drama and music in the education of citizens? How does dramatic poetry relate to other arts, and what are the ethical ramifications of the connections? How specific are certain emotions to literary genres, and how do those connect to Aristotle's extended account of *pathos*? Finally, how do internal elements of composition and language in poetry relate to other domains of Aristotelian thought? *The Poetics in its Aristotelian Context* offers a fascinating new insight to the Poetics and will be of use to anyone working on the Poetics or Aristotelian philosophy more broadly.

The Poetics of Aristotle Aristotle, Stephen Halliwell, 1987. Incorporating the best modern work on the Poetics, Halliwell's translation is aimed at those who want a reliable version of Aristotle's ideas along with concise and stimulating guidance. A running commentary explains the structure and detail of Aristotle's argument, attempts to provoke further thought about the work's strengths and weaknesses, and offers suggestions on relating the Poetics to later stages of literary theory and practice.

Translating the Poetry of the Holocaust Jean Boase-Beier, 2015-05-24. Taking a cognitive approach, this book asks what poetry and in particular Holocaust poetry does to the reader and to what extent the translation of this poetry can have the same effects. It is informed by current theoretical discussion and features many practical examples. Holocaust poetry differs from other genres of writing about the Holocaust in that it is not so much concerned to document facts as to document feelings and the sense of an experience. It shares the potential of all poetry to have profound effects on the thoughts and feelings of the reader. This book examines how the openness to engagement that Holocaust poetry can engender, achieved through stylistic means, needs to be preserved in translation if the translated poem is to function as a Holocaust poem in any meaningful sense. This is especially true when historical and cultural distance intervenes. The first book of its kind and by a world-renowned scholar and translator, this is required reading.

The Poetics of Indeterminacy Marjorie Perloff, 1999. She traces this tradition from its early French connection in the poetry of Rimbaud and Apollinaire, as well as in Cubist Dada and early Surrealist painting, through its various manifestations in the work of Gertrude Stein, William Carlos Williams, and Ezra Pound, to such postmodern landscapes without depth as the French-English language constructions of Samuel Beckett, the elusive dreamscapes of John Ashbery, and the performance works of David Antin and John Cage.
