**Vietnam, a Guide to Reference Sources** Michael Cotter,1977      **Milton Leitenberg: Pioneering Work on Weapons of Mass Destruction, Wars and Arms Control** Kathleen Margaret Vogel,Nicole Janice Ball,Milton Leitenberg,2025-09-26 This book is a collection of 44 representative publications and papers by Milton Leitenberg It allows publications that appeared in journals and books as well as unpublished work prepared for national and international organizations to appear in one place This makes them accessible to researchers for years and decades to come These studies made substantial contributions to the area of arms control particularly on the subjects of nuclear weapons wars and conflicts Soviet military studies biological weapons and other related international security areas all of which are of continued interest to security studies and political science audiences The primary audience is academics and practitioners in the arms control security studies and peace research fields The book is useful for graduate studies in arms control and peace research There is no similar book to this collection      **Vietnamese Tradition on Trial, 1920-1945** David G. Marr,1984-02-03 Despite the historical importance of the Vietnam War we know very little about what the Vietnamese people thought and felt prior to the conflict Americans have tended to treat Vietnam as an extension of their own hopes and fears successes and failures rather than addressing the Vietnamese record In this volume David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full scale revolutionary upheaval and protracted military conflict He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people s war strategies employed subsequently against the French and the Americans Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization However Vietnamese Tradition on Trial goes beyond simply accounting for anyone s victory or defeat to an informed description of intellectual currents in general Replying for his information on a previously ignored corpus of books pamphlets periodicals and leaflets the author isolates eight issues of central concern to twentieth century Vietnamese The new intelligentsia indubitably the product of a peculiar French colonial milieu yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future spearheaded every debate beginning ini 1925 After 1945 Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation David Marr suggests that the new problems facing Vietnamese today make both of these approaches anachronistic Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study      *Reference Sources* Linda Mark,1983      [Southeast Asian Research Tools: Vietnam](#) ,1979      **The Second Indochina War** William S Turley,2019-07-11 In the United States discussion of the Vietnam War has tended to focus on the U S role U S strategy U S diplomacy and the war s effects on American society The tendency to hold U S domestic politics responsible for the war s outcome implies that events in Indochina were nothing more than a

backdrop for an essentially American drama In contrast The Second Indochina War emphasizes the Vietnamese dimensions of a conflict in which all of Indochina Vietnam Laos and Cambodia was treated as a single strategic unit The author contends that only from this perspective is it clear how the war began why its scale outstripped U S expectations and why the Communists prevailed Professor Turley gives a balanced account of events in and views from Washington Saigon and Hanoi Drawing on years of research in primary documents and interviews conducted by the author in Saigon and Hanoi the book focuses on the experience strategies leadership and internal politics of the revolutionary side To set the scene the author considers the legacies of colonial rule in Indochina and the origins of the U S commitment there He recounts the development of the Saigon regime and explains the bases of revolution in the South the key communist decisions and the North s response to bombing The major military campaigns are clearly described and analyzed as are the negotiations that led to the Paris Agreement and its aftermath Vietnam is the central focus but the reader s attention is also drawn to the strategies and events that unified the conflict in all three countries of Indochina into a single war Concise yet comprehensive The Second Indochina War is suitable for the general reader as a text for courses on the war or as supplementary reading for courses on Southeast Asian politics U S foreign policy revolutionary conflict and Asian regional security An annotated bibliography and chronology enhance its usefulness Original material on communist internal debates and military campaigns based on primary documents in Vietnamese will also make this book a valuable resource for scholars of Southeast Asia

Cambodia ,1979      *Southeast Asian Research Tools: Laos* ,1979      **The Vietnamese Response to French Intervention, 1862-1874** Mark W. McLeod,1991-06-19 This is one of the very few scholarly Western language studies of the Vietnamese reaction to the French colonial conquest of Vietnam during the nineteenth century Utilizing Vietnamese primary sources to examine the reaction of scholars and the Vietnamese court to the French conquests Mark McLeod goes beyond studies that only analyze the conflict from primarily French sources As he states in the introduction the dynamic force behind Vietnamese historical development was usually seen to be the activity of colonial enterprises The Vietnamese people themselves enter these histories only insofar as they hinder or advance colonial policies to be blamed or praised accordingly McLeod studies the renaissance of historical writing that followed the political independence of Vietnam and presents the Vietnamese view of the nineteenth century colonization The Vietnamese Response to French Intervention 1862 1874 focuses on a period that has been generally neglected by Vietnam scholars the crucial early years of the French conquest It then analyzes the role of Catholic missionaries and the Vietnamese reaction to their presence during the conquest Providing historical background to the period of French colonization McLeod explores the significance of the long Nguyen Dynasty as well as the Franco Spanish invasion prior to French occupation Students and scholars of Southeast Asian history and colonization as well as the general reader interested in Vietnamese ideology and thought will find this book a valuable resource
