Violence And Miracles:

Violence and Miracle in the Fourteenth Century Michael E. Goodich,1995-09-01 As war pestilence and famine spread through Europe in the Middle Ages so did reports of miracles of hopeless victims wondrously saved from disaster These rescue miracles recorded by over one hundred fourteenth century cults are the basis of Michael Goodich s account of the miraculous in everyday medieval life Rescue miracles offer a wide range of voices rarely heard in medieval history from women and children to peasants and urban artisans They tell of salvation not just from the ravages of nature and war but from the vagaries of a violent society crime unfair judicial practices domestic squabbles and communal or factional conflict The stories speak to a collapse of confidence in decaying institutions from the law to the market to feudal authority Particularly the miraculous escapes documented during the Hundred Years War the Italian communal wars and other conflicts are vivid testimony to the end of aristocratic warfare and the growing victimization of noncombatants Miracles Goodich finds represent the transcendent and unifying force of faith in a time of widespread distress and the hopeless conditions endured by the common people of the Middle Ages Just as the lives of the saints once dismissed as church propaganda have become valuable to historians so have rescue miracles as evidence of an underlying medieval mentalite This work expands our knowledge of that state of mind and the grim conditions that colored and shaped it **Violence and Miracles** Bobbie Crittenden Beasley,2002-02-01 This Book is about Violence murder abuse and vision and how one woman turn tragedy into something good with the help from God And how God showed this woman what was going to happen to her son within a dream she have the knowledge of dreams but she depended on God to carry her through And also you will find how one woman helped some teenagers with their problem of abuse and hardship You will read how this woman helped one teenager to find God when God was already within his heart without the knowledge of his understanding And how she explain the beginning of the unversity to him that open his mind whereas he was able to listen to his heart **Miracles, Political Authority and Violence in Medieval and Early Modern History** Matthew Rowley,Natasha Hodgson,2021-11-11 This volume examines how historical beliefs about the supernatural were used to justify violence secure political authority or extend toleration in both the medieval and early modern periods Contributors explore miracles political authority and violence in Orthodoxy Roman Catholicism various Protestant groups Judaism Islam and the local religious beliefs of Pacific Islanders who interacted with Christians The chapters are geographically expansive with contributions ranging from confessional conflict in Poland Lithuania to the conquest of Oceania They examine various types of conflict such as confessional struggles conversion attempts assassination and war as well as themes including diplomacy miraculous iconography toleration theology and rhetoric Together the chapters explore the appropriation of accounts of miraculous violence that are recorded in sacred texts to reveal what partisans claimed God did in conflict and how they claimed to know The volume investigates theories of justified warfare changing beliefs about the supernatural with the advent of modernity

and the perceived relationship between human and divine agency Miracles Political Authority and Violence in Medieval and Early Modern History is of interest to scholars and students in several fields including religion and violence political and military history and theology and the reception of sacred texts in the medieval and early modern world

Madness, Medicine and Miracle in Twelfth-Century England Claire Treneer, 2019-02-12 This book explores how madness was defined and diagnosed as a condition of the mind in the Middle Ages and what effects it was thought to have on the bodies minds and souls of sufferers Madness is examined through narratives of miraculous punishment and healing that were recorded at the shrines of saints This study focuses on the twelfth century which has been identified as a Medieval Renaissance a time of cultural and intellectual change that saw among other things the circulation of new medical treatises that brought with them a wealth of new ideas about illness and health With the expanding authority of the Roman Church and the tightening of papal control over canonisation procedures in this period historians have claimed that there was a rationalisation of the miraculous In miracle records illnesses were explained using newly accessible humoral theories rather than attributed to divine and demonic forces as they had been previously The first book length study of madness in medieval religion and medicine to be published since 1992 this book challenges these claims and reveals something of the limitations of the so called medicalisation of the miraculous Throughout the twelfth century demons continue to lurk in miracle records relating to one condition in particular madness Five case studies of miracle collections compiled between 1070 and 1220 reveal that hagiographical representations of madness were heavily influenced by the individual circumstances of their recording and yet were shaped as much by hagiographical patterns that had been developing throughout the twelfth century as they were by new medical and theological standards

Women and Miracle Stories Anne-Marie Korte, 2001 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction Miracle stories are a genre of great importance for the study of women s religious inheritance and for the historical and cultural understanding of women as makers of faith Miracle stories are very generally speaking more open to popular religion and culture than for instance doctrinal and official ecclesiastical texts and as such they can be of special interest to the study of women s lives and religious aspirations Remarkably up till now this genre has not been looked at from this point of view This book aims to open this field for further research by presenting case studies from diverse angles and disciplines Some of the questions this book tries to answer are What do miracle stories specifically tell us about women Are there some types of miracles that are in particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to

acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity
