Community visioning and action plans: Tonle Sap hub Oeur, I., Dane, S., Sopheakdey, S., 2015-06-19 The process of rolling out the CGIAR Research Program on Aquatic Agricultural Systems AAS in 12 target villages in the Tonle Sap region in Cambodia throughout 2013 involved several important tasks at different stages. This report covers one of those tasks: the Community Life Competence Process (CLCP), commonly referred to by stakeholders as visioning. It has two main objectives: 1) to document the community visioning process, including the development of a community action plan and NGO work plan to monitor progress; and 2) to document village and network profiles of key community stakeholders at the village level.
