Strange Sightings From Outer Space:

Strange Sightings on the Moon, Mars, and In Space Martin K. Ettington, Most of my books on Aliens and UFOs are about evidence of them existing on Earth However there are also many unusual sightings in space which is the subject of this book These sightings cover the following locations UFOs flying around the International Space Station Bases and UFOs on the Moon Strange sightings on Mars taken by our Martian rovers In deep space elsewhere in the Solar System These pictures may or may not be real alien life or UFO technologies but they are fascinating none the less Some of the sightings like the face in Cydonia are just a result of our natural abilities to see living forms in many types of pictures But some may turn out to be real phenomena Certainly some of these sightings can t be anything other than real UFOs If you want to learn about strange sightings in the Solar System outside of Earth then this book is for you *Outer Space, Aliens, and the Holy Bible* Paul Theriault,2010-03-23 As time goes on man still has the same unanswered questions regarding the unknown phenomenon that s infected our planet Without expectation the unknown has appeared and disappeared without a clue as to what they are who they are and why they are here We know there is an outer space beyond Earth which contains an endless mass of stars planets asteroids and moons We call it the cosmos which refers to everything in space including Earth Is there anyone or anything out there besides us *Visitors from Outer Space* Roy Stemman,1976 **The Inner Limits of Outer Space** John C.
