Televising War:

Televising War Andrew Hoskins, 2004-06-15 Our relationship with the past whether judgment celebration commemoration or denial has become an important part of public culture This book explores the relationship between televisual communication and memory focusing on the conflicts that have disrupted and changed our world over the past 50 years with particular reference to the current war in Iraq Case studies cover the Holocaust Vietnam both Gulf Wars and Kosovo Though the Vietnam War was extensively televised it was framed within a domestic U S context By the time of the latest Gulf War and Kosovo the coverage of warfare was both more immediate and more global Hoskins illustrates this with a comparative critique of individual countries national media framing of war including Middle Eastern perspectives in contrast to the so called global viewpoint of satellite news networks such as CNN *Televising War* examines the intertwining of self society and media that influences our understanding of both past and present *Vietnam War coverage on U.S. television newscasts* Morena Groll, 2005-03-30 Seminar paper from the year 2004 in the subject American Studies Culture and Applied Geography grade 1 0 Martin Luther University Anglistik Amerikanistik course Vietnam War and American Society language English abstract The Vietnam War was and still is a decisive chapter in U S history It was the longest military conflict which on top of everything ended in defeat for the Americans This war had an enormous impact on various spheres both in private and public life Above all it drastically shaped the relationship between politics and public opinion and raised questions on the role the media played during the military conflict The Vietnam War and its perception were unprecedented in their entire dimension In general this was due to the climate of social and political change taking place during the 1960 s and more specifically because of a totally new institution being embedded in this situation television During this decade television expanded and became the most important source of information for the people This medium offered totally new perspectives and dimensions both of war coverage and its perception which is clearly expressed in the following statement Television brought the brutality of war into the comfort of the living room 1 The fact that there was no experience with regard to the mechanisms methods and effects of TV war coverage made a rather experimental reporting possible Both journalists and politicians were facing a new situation concerning the intertwining between television politics and the Vietnam War issue This paper aims at examining this interrelation by analysing the way the Vietnam War was covered by U S television and by looking at the consequences of this coverage This examination shall provide answers to questions asking for the impact of television on public opinion U S politics and the course of war The focus is put on television because studies and surveys have shown that more than half of the American population received their information from television newscasts which they considered to be more reliable than the press or other media 2 In addition there is comprehensive material on television reporting as well as profound analyses of it which is a rather pragmatic reason for concentrating on the role of U S TV during the Vietnam War This paper is concerned with the contents and characteristics of war coverage and the effect it had on the

role of the media during the Vietnam War **Television and Short-wave World** ,1930 **Journal of the Society of Motion Picture and Television Engineers** Society of Motion Picture and Television Engineers,1920 Television in Black-and-white America Alan Nadel,2005 La couverture indique Alan Nadel s new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel s Johnny Yuma reincarnating Southern values and Bonanza s Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation s mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands **Differences in Television News Coverage; A Comparison of RTL aktuell and ARD Tagesschau** ,2006-07-06 Bachelor Thesis from the year 2006 in the subject Communications Movies and Television grade 8 A Maastricht University University College course Capstone language English abstract In a case study this paper investigates the differences in news coverage of RTL aktuell and the Tagesschau These two news programs are broadcasted by two very different German television channels the privately funded RTL and the publicly funded ARD The findings of an in depth analysis of both news broadcastings conducted over a period of one week suggest the major differences to be 1 in the focus on certain news topics in the reporting style in terms of 2 balance of opinions 3 complexity of the issue presented and 4 type and way of language used and finally 5 in the underlying tone or appeal to the audience RTL aktuell for example reports less political topics in a less balanced and complex way This might be due to a younger audience that is appealed to and due to expectedly higher ratings which are hoped to attract more advertisers These findings suggest that the type of broadcasting system influences the news selection and presentation Hence it can be underlined how significant an independent public broadcasting system is for a democracy Broadcasting & Cable ,2008 **Science and Invention** ,1929 **The Publishers' Circular and Booksellers' Record** ,1924 *Discovery* , War and Television Bruce Cumings,1992 Television has come to play an ever more decisive role in the preparation and planning of war as well as in its execution In War and Television Bruce Cumings carefully explores the history of television s relationship to US warmaking since World War II up to and including its presentation of the carnage in Kuwait and Iraq Cumings examines Vietnam long thought to have been the first television war but finds that characterization more apt for the Gulf conflict which was fought through packaged by and sold to the public on television At the centre of the book is the extraordinary tale of Cumings s own experience as historical consultant to a Thames Television production Korea The Unknown War and his subsequent trials with the Public Broadcasting System when the film was released for North American distribution **Hazeltine Research,**
