The Place of God in Piers Plowman and Medieval Art Mary Clemente Davlin, 2017-03-02 Probing spatial questions about God posed by Piers Plowman the author of this interdisciplinary study turns to pictorial evidence the use of religious space and relationships within such space in English art of the same period The Place of God in Piers Plowman and Medieval Art is not only a study of the sense of God and of the relationship between God and creatures in the great religious poem but also an analysis of art works of the high Middle Ages especially English manuscript illuminations in their placement of God Such interdisciplinary analysis historicizes both literature and art uncovering ways that medieval people imagined God and the understandings that they would have been able to bring to reading and viewing religious art

Places That Matter Dr. Joan Ferrante, 2018-07-24 Places that Matter asks the reader to identify a place that matters in their life their home a place of worship a park or some other site that acts as an emotional and physical anchor and connects them to a neighborhood Then readers are asked In what ways do I currently support or fail to support that neighborhood Should support be increased If so in what ways Joan Ferrante guides students through a learning experience that engages qualitative and quantitative research and culminates in writing a meaningful plan of action or research brief Students are introduced to basic concepts of research and are exposed to the experiences of gathering and drawing on data related to something immediate and personal The class tested exercises are perfect for courses that emphasize action based research and social responsibility The book s overarching goal is to help students assess their neighborhood s needs and strengths and then create a concrete plan that supports that neighborhood and promotes its prosperity Accompanying the book is a facilitator s companion website to guide action based research experiences which includes rubrics that are aligned to common learning objectives and are also designed to make tracking and reporting easier
