Choosing Not Choosing Sharon Cameron,1992 Although Emily Dickinson copied and bound her poems into manuscript notebooks in the century since her death her poems have been read as single lyrics with little or no regard for the context she created for them in her fascicles Choosing Not Choosing is the first book length consideration of the poems in their manuscript context Sharon Cameron demonstrates that to read the poems with attention to their placement in the fascicles is to observe scenes and subjects unfolding between and among poems rather than to think of them as isolated riddles enigmatic in both syntax and reference Thus Choosing Not Choosing illustrates that the contextual sense of Dickinson is not the canonical sense of Dickinson Considering the poems in the context of the fascicles Cameron argues that an essential refusal of choice pervades all aspects of Dickinson s poetry Because Dickinson never chose whether she wanted her poems read as single lyrics or in sequence nor is it clear where any fascicle text ends or even how in context a poem is bounded not choosing is a textual issue it is also a formal issue because Dickinson refused to chose among poetic variants it is a thematic issue and finally it is a philosophical one since what is produced by not choosing is a radical indifference to difference Extending the readings of Dickinson offered in her earlier book Lyric Time Cameron continues to enlarge our understanding of the work of this singular American poet *Visions of Apartheid's Death* Ayotunde Amtac Babatunji,1994 *DEATH AND BEYOND* Paul Joseph,2026-02-07 Death and Beyond Multidimensional Perspectives on Life Death and Afterlife distils the reflections of some of humanity s greatest minds on one of life s most profound mysteries Drawing from the insights of mystics philosophers writers mathematicians scientists and statesmen as well as the teachings of world religions and mystical traditions Paul Joseph presents a rich tapestry of thought on death and what lies beyond Blending intellectual depth with spiritual sensitivity the book explores how different disciplines and cultures have interpreted the mystery of existence the immortality of the soul and the continuity of consciousness beyond physical life This book examines the phenomenon of death in terms of Ecology Anthropology Quantum mechanics and Thermodynamics It connects reason with revelation science with spirituality and logic with faith to uncover universal truths that transcend time and culture *Hello Spirit* Wilma Davidson,2016-04-28 HELLO SPIRIT is crammed full of useful information to help you find your spiritual pathway to psychic development This reader friendly book written with humour honesty and warmth contains information on an enormous range of subjects associated with spiritual matters including how to contact loved ones in the spirit world Included are chapters on Spirit Guides Near Death Experiences Psychic Development Earthbound Spirits Angels Deathbed Visions Your Aura Spiritual
