Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1977 EduChange Methodology Jiří Pánek et al., Making Knowledge Together Addressing Climate Change through Innovative Place Based Education and Blended Learning is the official name of the Erasmus Strategic Partnership project shortly EduChange The project aimed to innovate our way of teaching about Climate Change in both local and global perspectives via the field course methodology It brought together students and teachers from four European universities University of Malta Utrecht University the Netherlands Norwegian University of Science and Technology Trondheim Norway and Palacky University Olomouc Czechia with an idea that teaching and learning in the field is often rather traditional and teacher led Through EduChange we wanted to transform field courses into innovative creative learning environments in which teachers students and pupils can create knowledge together We believe that supporting innovation and creativity can be achieved via international partnerships and inter and trans disciplinary approaches This book presents the overall methodology used during the EduChange project

Creating Significant Learning Experiences L. Dee Fink,2003-06-17 Dee Fink poses a fundamental question for all teachers How can I create courses that will provide significant learning experiences for my students In the process of addressing this question he urges teachers to shift from a content centered approach to a learning centered approach that asks What kinds of learning will be significant for students and how can I create a course that will result in that kind of learning Fink provides several conceptual and procedural tools that will be invaluable for all teachers when designing instruction He takes important existing ideas in the literature on college teaching active learning educative assessment adds some new ideas a taxonomy of significant learning the concept of a teaching strategy and shows how to systematically combine these in a way that results in powerful learning experiences for students Acquiring a deeper understanding of the design process will empower teachers to creatively design courses for significant learning in a variety of situations
