Infrastructures of Reality: Metaverse Stories, Spaces, Bodies Chris Hesselbein,Paolo Bory,2025-08-09 This open access book focuses on two dimensions of the development of the metaverse that are crucial to reality namely spatiality and embodiment Metaversal technologies are thought to fundamentally affect both our spaces and bodies which are two central aspects of the constitution of social reality Both spatiality and embodiment are core elements of world making that are being pulled into the ambit of metaversal projects On the one hand metaversal technologies are profoundly spatial in the sense that they render space in virtual form or overlay digital layers onto pre-existing physical spaces On the other hand metaversal

technologies are directly geared towards the body in that they not only seek to extend or expand our embodied senses and enmesh our bodies in virtual spaces but they also seek to capture their behaviours and actions on a far more granular level. This can create new opportunities in terms of work social interaction and leisure but can also open our bodies up to new tech driven interventions and control. Whether in the form of VR or AR such technologies not only reproduce space but also rely on making spaces more legible and open to automated interventions. Taken together the metaversification of spaces and bodies gives rise to crucial questions about the goals and implications of metaversal developments by large technology companies and about the relationship between the developments of the metaverse and AI systems. Drawing on our combined background and expertise in Science and Technology Studies and the History of Media and Communication we critically analyse the development of metaversal technologies and platforms by discussing a broad set of developments and examples from a wide range of technology and gaming companies. Written in clear concise and accessible language and combining and applying novel theoretical frameworks and concepts to a currently emergent phenomenon this book will find a large audience not only within academic and professional circles but also in popular culture.

Daqinix's Group Recount: Complete Edition
Daqinix, 2025-09-30
Across more than a decade Daqinix built experimented failed forward and created worlds that shaped entire communities on Roblox. This definitive volume collects the complete journey from the earliest startups and clunky Paint logos through the breakout successes that defined eras to the quieter groups that taught lessons along the way. Inside you'll find the trials and triumphs that made a creator the ambitious airlines the iconic hotels the unexpected detours and the brands that became legends like FreshLane and McDonalds. Together they form not just a history of groups but a story of growth resilience and imagination. This is more than a record of groups. It's the archive of a legacy.

Islam
Conrad Riker,
The West is dying Islam is rising Here's why weak men hate the truth Why do Western men lose custody battles while Muslim men lead thriving families How did a 7th century desert creed conquer 80% of the known world and what can you learn from it What if toxic masculinity is just code for winning Exposes the Darwinian link between jihad and male reproductive success Debunks feminist myths about Islamic patriarchy with cold hard data Reveals how 1 400 years of Islamic conquests humiliated civilized empires Proves why modern no fault divorce enslaves men and how Sharia protects them Documents the 23% marriage gap between Muslim nations and the decaying West Explains why leftists ally with Islamists to destroy traditional masculinity Details the evolutionary science behind hijabs polygamy and high testosterone Warns Outbreed or be replaced the survival math is brutal If you want to crush woke lies reclaim masculine purpose and survive the coming cultural jihad buy this book today
