Spectator Cartoon Michael Heath, Dominic Lawson, 1992-12-01 *Animated 'Worlds'* Suzanne Buchan, 2007-02-20 What do we mean by the term animation when we are discussing film Is it a technique A style A way of seeing or experiencing a world that has little relation to our own lived experience of the world In *Animated Worlds* contributors reveal the astonishing variety of worlds animation confronts us with Essays range from close film analyses to phenomenological and cognitive approaches spectatorship performance literary theory and digital aesthetics Authors include Vivian Sobchack Richard Weihe Thomas Lamarre Paul Wells and Karin Wehn *Animated Film and Disability* Slava Greenberg, 2023-02-07 While many live action films portray disability as a spectacle *crip animation* a genre of animated films that celebrates disabled people's lived experiences uses a variety of techniques like clay animation puppets pixilation and computer generated animation to represent the inner worlds of people with disabilities *Crip animation* has the potential to challenge the ableist gaze and immerse viewers in an alternative bodily experience In *Animated Film and Disability* Slava Greenberg analyzes over 30 animated works about disabilities including *Rocks in My Pockets* *An Eyeful of Sound* and *A Shift in Perception* He considers the ableism of live action cinematography the involvement of filmmakers with disabilities in the production process and the evocation of the spectators senses of sight and hearing consequently subverting traditional spectatorship and listenership hierarchies In addition Greenberg explores physical and sensory accessibility in theaters and suggests new ways to accommodate cinematic screenings Offering an introduction to disability studies and *crip theory* for film media and animation scholars *Animated Film and Disability* demonstrates that *crip animation* has the power to breach the spectator's comfort evoking awareness of their own bodies and in certain cases their social privileges **Animation** Chris Pallant, 2021-01-01 *Animation Critical and Primary Sources* is a major multi volume work of reference that brings together seminal writings on animation studies Gathering historical and contemporary texts from a wide ranging number of sources the volumes provide a key resource in understanding and studying the past and future directions of animation studies The four volumes thematically trace animation studies from its many definitions or a lack thereof to the institutional nature of animation production to establishing greater space within animation discourse for the consideration of broadcast and interactive animation and finally giving greater contextual understanding of the field of animation studies by focusing on Authorship Genre Identity Politics and Spectatorship thus enabling readers to engage more deeply with the ideas discussed in the final volume Ordering the collection in this way avoids imposing an overly simplistic chronological framework thereby allowing debates that have developed over years and even decades to stand side by side Each volume is separately introduced and the essays structured into coherent sections on specific themes **Cinema Studies: The Key Concepts** Susan Hayward, 2002-01-04 This is the essential guide for anyone interested in film Now in its second edition the text has been completely revised and expanded to meet the needs of today's students and film enthusiasts Some 150 key genres
