By: Stephen Crane* Stephen Crane,2017-05-08 The Open Boat is a short story by American author Stephen Crane 1871-1900 First published in 1897 it was based on Crane's experience of surviving a shipwreck off the coast of Florida earlier that year while traveling to Cuba to work as a newspaper correspondent Crane was stranded at sea for thirty hours when his ship the SS Commodore sank after hitting a sandbar He and three other men were forced to navigate their way to shore in a small boat one of the men an oiler named Billie Higgins drowned after the boat overturned Crane's personal account of the shipwreck and the men's survival titled Stephen Crane's Own Story was first published a few days after his rescue Crane subsequently adapted his report into narrative form and the resulting short story The Open Boat was published in Scribner's Magazine The story is told from the point of view of an anonymous correspondent with Crane as the implied author the action closely resembles the author's experiences after the shipwreck A volume titled The Open Boat and Other Tales of Adventure was published in the United States in 1898 an edition entitled The Open Boat and Other Stories was published simultaneously in England Praised for its innovation by

contemporary critics the story is considered an exemplary work of literary Naturalism and is one of the most frequently discussed works in Crane's canon. It is notable for its use of imagery, irony, symbolism, and the exploration of such themes as survival, solidarity, and the conflict between man and nature. H. G. Wells considered *The Open Boat* to be beyond all question the crown of all Crane's work.

PLOT *The Open Boat* is divided into seven sections, each told mainly from the point of view of the correspondent based upon Crane himself. The first part introduces the four characters: the correspondent, a condescending observer detached from the rest of the group; the captain, who is injured and morose at having lost his ship yet capable of leadership; the cook, fat and comical but optimistic that they will be rescued; and the oiler, Billie, who is physically the strongest and the only one in the story referred to by name. The four are survivors of a shipwreck which occurred before the beginning of the story and are drifting at sea in a small dinghy. In the following four sections, the moods of the men fluctuate from anger at their desperate situation to a growing empathy for one another and the sudden realization that nature is indifferent to their fates. The men become fatigued and bicker with one another; nevertheless, the oiler and the correspondent take turns rowing toward shore while the cook bails water to keep the boat afloat. When they see a lighthouse on the horizon, their hope is tempered with the realization of the danger of trying to reach it. Their hopes dwindle further when, after seeing a man waving from shore and what may or may not be another boat, they fail to make contact. The correspondent and the oiler continue to take turns rowing while the others sleep fitfully during the night. The correspondent then notices a shark swimming near the boat, but he does not seem to be bothered by it as one would expect. In the penultimate chapter, the correspondent wearily recalls a verse from the poem *Bingen on the Rhine* by Caroline Norton, in which a soldier of the Legion dies far from home.

Stephen Crane (November 1, 1871 – June 5, 1900) was an American poet, novelist, and short story writer. Prolific throughout his short life, he wrote notable works in the Realist tradition as well as early examples of American Naturalism and Impressionism. He is recognized by modern critics as one of the most innovative writers of his generation.

The Open Boat Stephen Crane, 2020-10-26. None of them knew the colour of the sky. Their eyes glanced level, and were fastened upon the waves that swept toward them. These waves were of the hue of slate, save for the tops, which were of foaming white, and all of the men knew the colours of the sea. The horizon narrowed and widened, and dipped and rose, and at all times its edge was jagged with waves that seemed thrust up in points like rocks. Many a man ought to have a bath tub larger than the boat, which here rode upon the sea. These waves were most wrongfully and barbarously abrupt and tall, and each froth top was a problem in small boat navigation. The cook squatted in the bottom and looked with both eyes at the six inches of gunwale which separated him from the ocean. His sleeves were rolled over his fat forearms, and the two flaps of his unbuttoned vest dangled as he bent to bail out the boat. Often he said, "Gawd! That was a narrow clip." As he remarked it, he invariably gazed eastward over the broken sea. The oiler, steering with one of the two oars in the boat, sometimes raised himself suddenly to keep clear of water that swirled in over the stern. It was a thin little oar, and it seemed

often ready to snap The correspondent pulling at the other oar watched the waves and wondered why he was there The injured captain lying in the bow was at this time buried in that profound dejection and indifference which comes temporarily at least to even the bravest and most enduring when willy nilly the firm fails the army loses the ship goes down The mind of the master of a vessel is rooted deep in the timbers of her though he commanded for a day or a decade and this captain had on him the stern impression of a scene in the greys of dawn of seven turned faces and later a stump of a top mast with a white ball on it that slashed to and fro at the waves went low and lower and down Thereafter there was something strange in his voice Although steady it was deep with mourning and of a quality beyond oration or tears Keep er a little more south Billie said he A little more south sir said the oiler in the stern A seat in this boat was not unlike a seat upon a bucking broncho and by the same token a broncho is not much smaller The craft pranced and reared and plunged like an animal As each wave came and she rose for it she seemed like a horse making at a fence outrageously high The manner of her scramble over these walls of water is a mystic thing and moreover at the top of them were ordinarily these problems in white water the foam racing down from the summit of each wave requiring a new leap and a leap from the air Then after scornfully bumping a crest she would slide and race and splash down a long incline and arrive bobbing and nodding in front of the next menace A singular disadvantage of the sea lies in the fact that after successfully surmounting one wave you discover that there is another behind it just as important and just as nervously anxious to do something effective in the way of swamping boats In a ten foot dingey one can get an idea of the resources of the sea in the line of waves that is not probable to the average experience which is never at sea in a dingey As each slaty wall of water approached it shut all else from the view of the men in the boat and it was not difficult to imagine that this particular wave was the final outburst of the ocean the last effort of the grim water There was a terrible grace in the move of the waves and they came in silence save for the snarling of the crests
