The 5x questions checklist for an effective hybrid workplace model

01

What do people want?

As mentioned above, a successful hybrid work strategy and hybrid workplace model can only work if it's designed for the people.

Before making any significant decisions or investments, it's important to understand the preferences, needs, and expectations of the employees you want to attract, retain, and engage. This includes understanding their work preferences, their needs, and the challenges they face.

The way to build a hybrid work model is to start with the people. Understand their needs and preferences, and then design a hybrid work model that meets those needs and preferences.

How do you know? Start by asking your employees what they want. Conduct surveys, focus groups, and interviews to understand their needs and preferences. Then, design a hybrid work model that meets those needs and preferences.
