Stalking A Hot Issue:

Stalking Crimes and Victim Protection Joseph A. Davis, 2001-06-26 Although stalking is an age old phenomenon it is only recently receiving due attention In a span of just ten years all fifty states have passed anti stalking legislation For the first time Stalking Crimes and Victim Protection Prevention Intervention Threat Assessment and Case Management brings together in one source all the research done

Images of Issues Joel Best, 2017-09-29 Constructionist theory describes and analyzes social problems as emerging through the efforts of claimsmakers who bring issues to public attention By typifying a problem and characterizing it as a particular sort claimsmakers can shape policymaking and public response to the problem This new edition of Images of Issues addresses claimsmaking in the 1990s featuring such issues as fathers rights stalking sexual abuse by the clergy hate crimes multicultural education factory farming and concluding with an expanded discussion of the theoretical debate over constructionism

Random Violence Joel Best, 1999-03-02 A major contribution to the literature on social problems crime and social deviance and a fine example of what is currently the best established theoretical approach to this material It is laudably interdisciplinary draws admirably from high and low culture and over all asks some very challenging questions Philip Jenkins Pennsylvania State University Random Violence extends the growing scholarly literature on the social construction of social problems by showing us how currently trendy folk knowledge obscures the most perplexing problems in American society and how it serves to foster a climate of social distrust Donileen Loeske University of South Florida

The Mythology of Crime and Criminal Justice Victor E. Kappeler, Gary W. Potter, 2017-07-18 The social construction of crime is often out of proportion to the threat posed The media and advocacy groups shine a spotlight on some crimes and ignore others Street crime is highlighted as putting everyone at risk of victimization while the greater social harms from corporate malfeasance receive far less attention Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior Interest groups promote their agendas by appealing to public fears Justifications often have no basis in fact but the public accepts the exaggerations and blames the targeted offenders The net widening effect of more laws and more punishment catches those least able to defend themselves This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system Kappeler and Potter dissect popular images of crimes and criminals in a cogent compelling and engaging manner They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths and the collateral damage of basing policies on mythical beliefs The authors encourage skepticism about commonly accepted beliefs offer readers a fresh perspective and urge them to analyze important issues from novel vantage points
