## **Standard Indonesian Made Simple:**

*Standard Indonesian Made Simple* Yock Fang Liaw, 1990      **Standard Indonesian Made Simple** Yock Fang Liaw, Nini Tiley-Notodisuryo, 2008      **Southeast Asian Personalities of Chinese Descent** Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia. I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the rectification of identities for many leading personalities. In so doing he has done us all a great service. Professor Wang Gungwu, National University of Singapore.

**A History of Classical Malay Literature** Liaw Yock Fang, 2013 This is a detailed narrative based history of Classical Malay Literature. It covers a wide range of Malay texts including folk literature, the influence of the Indian epics and shadow theatre, Panji tales, the transition from Hindu to Muslim literary models, Muslim literature, framed tales, theological literature, historical literature, legal codes and the dominant forms of poetry, the pantun and syair. The author describes the background to each of these particular literary periods. He engages in depth with specific texts, their various manuscripts and their contents. In so doing he draws attention to the historical complexity of traditional Malay society, its worldviews and its place within the wider framework of human experience. Dr Liaw's *History of Classical Malay Literature* will be of benefit to beginning students of Malay Literature and to established scholars alike. It can also be read with benefit by those with a wider interest in Comparative Literature and in Southeast Asian culture in general.
