Entin, Rebecca Hill, 2021-08-17 What if American Studies is defined not so much in the pages of the most cutting edge publications but through what happens in our classrooms and other learning spaces In Teaching American Studies Elizabeth Duclos Orsello Joseph Entin and Rebecca Hill ask a diverse group of American Studies educators to respond to that question by writing chapters about teaching that use a classroom activity or a particular course to reflect on the state of the field of American Studies Teaching American Studies speaks to teachers with a wide range of relationships to the field To start it is a useful how to guide for faculty who might be new to or unfamiliar with American Studies Each author brings the reader into their classes to offer specific concrete details about their pedagogical practice and their students learning The resulting chapters connect theory and educational action as well as share challenges difficulties and lessons learned The volume also provides a collective impression of American Studies from the point of view of students and teachers What primary and secondary texts and what theoretical challenges and issues do faculty use to organize their teaching How does the teaching we do respond to our institutional and educational contexts How do our experiences and those of our

students challenge or change our understanding of American Studies Chapters in this collection discuss teaching a broad range of materials from memoirs and novels by Anne Moody and Octavia Butler to cutting edge cultural theory to the widely used collection Keywords for American Cultural Studies But the chapters in this collection are also about dancing eating and walking around a campus to view statues and gravestones They are about teaching during the era of Donald Trump Black Lives Matter and giving up authority in the classroom Teaching American Studies is both a new way to think about American Studies and a timely collection of effective ways to teach about race gender sexuality and power in a moment of political polarization and intense public scrutiny of universities
