Services OSS the forerunner of the CIA and the exploits of its agents during World War II Virtually unknown however is the work of the extraordinary community of scholars who were handpicked by Wild Bill Donovan and William L Langer and recruited for wartime service in the OSS s Research and Analysis Branch R philosophers historians and economists regionalists and functionalists Marxists and positivists all engaged in the heady task of translating the abstractions of academic discourse into practical politics Drawing on extensive newly declassified archival sources Barry M Katz traces the

careers of the key players in R A whose assessments helped to shape U S policy both during and after the war He shows how these scholars who included some of the most influential theorists of our time laid the foundation of modern intelligence work Their reports introduced the theories and methods of academic discourse into the workings of government and when they returned to their universities after the war their wartime experience forever transformed the world of scholarship Authoritative probing and wholly original Foreign Intelligence not only sheds new light on this overlooked aspect of the U S intelligence record it also offers a startling perspective on the history of intellectual thought in the twentieth century
