The Painkillers:

The Monk/manager and the Road to Abbey-management Eric R. J. Lefebvre,1997 **Feeding the Monster** Ronald R. Schur Jr.,2013-08 As I watched the darkness descend the distinction between sky and land disappeared The murky gray color covered the landscape as if a blanket were smothering my existence It suddenly grew very cold and although seemingly impossible I felt more alone than my life ever allowed before The darkness entered the room and the depths of my emptiness felt its presence It brought me back back so far that I curled up in a corner much like the position I occupied in my mother s womb so many years ago While familiar questions raced through my frustrated mind that night I again realized my quest for an answer may never be over I prayed over and over for God to take me quietly without pain I have suffered enough My prayers went unanswered again With the beginning of each day we ask the same questions We pray for answers we beg to be shown the way to a better life Alone and broken each night we ask we pray for a way out a way to stop the cycle of destruction loneliness and shame Thousands of times I have repeated this conduct but for so long now my futile struggle moves me further away from that which I strongly crave to obtain Each day my conduct although aware of it being ill advised brings me to a dark and pathetic place I cannot escape myself I cannot forgive myself Hopeless hollow and beat up I surrender once again in defeat And so the cycle continues My story is not unknown to mankind It has repeated itself time and time again So many have experienced it and although much of it is now understood it is often still unforgivable upon self reflection Only the alcoholic or addict has the ability due to experience to completely engage the true depth of its destruction and resulting emptiness although all in its path suffer relentlessly and often without recourse This book documents to the best of my ability my road to addiction destruction and recovery **The Testosterone Deception** Robin Haring,2015-01-05 Most of us believe that more testosterone makes for more man But what if this assumption is fundamentally wrong What if the quest for authentic manhood is less determined by testosterone than we all thought Bringing together extensive scientific research author Robin Haring shows that testosterone is involved in virtually every aspect of life relationships work health sleep diet exercise learning and sexuality Drawing on the latest research in medicine psychology and behavioral neuroscience Haring not only reveals what testosterone can and cannot do for men but also makes the compelling and radical argument that quality of life for men has very little to do with their testosterone levels and everything to do with their lifestyle Presented with insight and humor the book has a provocative and liberating message for all of us testosterone levels are much more malleable than previously thought which means that men are not doomed to be the passive victims of age related testosterone depletion But above and beyond this the book has a subversive message It says that your testosterone level is not and ought not to be the benchmark for successful living Each individual man has the freedom to define this for himself Because you are more than your testosterone level Are you ready for that [Out of the Valley of Death](#) Lay Tin Tan,2009 **Heal Beneath the Surface** Crystal Sage,2011-06-09 This book is intended to Take the confusion and fear out
