To Scatter Stones

Joseph Giorda

To Scatter Stones:

To Scatter Stones M. T. Dohaney, Lynn Henry, 2005 Described as Newfoundland's answer to Frank McCourt M T Dohaney's To Scatter Stones is available once again Long out of print the highly anticipated To Scatter Stones was first published in 1992 the second novel in Dohaney's celebrated Corrigan Women trilogy In this novel Tess Corrigan newly divorced has moved from Montreal to St John's as manager of a travel agency On a visit to her birthplace a tiny outport called the Cove she agrees to stand as the Liberal candidate in the forthcoming provincial election Little by little she becomes wrapped up in the lives of her childhood friends and neighbours But the return to her roots is also difficult The last of the Corrigan women Tess is the daughter of Carmel and an American soldier who turns out to be a bigamist In addition to the uncomfortable echoes from her past Tess's politics stir up conflict in the traditionally Tory village Not only does she face discouraging odds and hard ethical choices but she is the first petticoat candidate ever to run for office in the Cove On top of these external crises Tess must deal with her own conflicting emotions and the love of youth Dennis Walsh now a priest who reappears in the Cove To Scatter Stones spans from the 1960s into the 1990s marking not only the life changes of the last of the Corrigan women but the radical changes as Newfoundland moved from paternalism and an economy based on the fishery to a more equitable political ideal With wit and insight M T Dohaney carries the story of the Corrigan women into the final decades of the 20th century

Of Ecclesiastes and More Salvastian Teller, 2019-07-29 Was the Cold War a clash of belief systems or simply a race for technology How did the Information Age of humankind begin at the end of the millennium Is the evolution of species God's awesome means of

creation or is it just a very long sequence of accidents Is there evidence of a spiritual world beyond the material Can science of the twenty first century provide us with all the truth and meaning of life The answers to these seemingly disparate questions could be found in the life of a computer science engineer who was involved in designing the first computers in his own country behind the Iron Curtain and who later emigrated to the West His journey across technological advances nations cultures worldviews and political and social systems as they were changing dramatically at the end of the millennium is captivating The book considers the problems of humanity through the life of the baby boom generation during the Cold War their upbringing and realizations their aspirations their challenges their successes their failures and their disillusionment as they searched for something firmer to hold on to for the truth and the meaning of life They experienced turbulence and trauma just in the apogee of their age when many are expected to bear fruit and enjoy it Instead they had to make life changing decisions and dramatic moves that were very similar to the flying of an adult bird kept in a cage since birth It was a quest for worldviews and value systems that required them to step out of the narrow profession and engage more actively with social and ethical issues in order to survive The story is an unequivocal testimony to God s magnificent grace to mankind
